America's National Game

By A. G. SPALDING

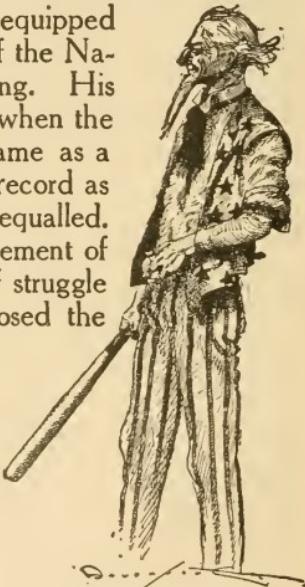

PRICE, \$2.00 NET

A book of 600 pages, profusely illustrated with over 100 full page engravings, and having sixteen forceful cartoons by Homer C. Davenport, the famous American artist.

No man in America is better equipped to write on all the varied phases of the National Game than is A. G. Spalding. His observation and experience began when the game was young. He gained fame as a pitcher forty years ago, winning a record as player that has never yet been equalled. He was associated with the management of the pastime through trying years of struggle against prevailing evils. He opposed the gamblers; he fought to eradicate drunkenness; he urged and introduced new and higher ideals for the sport; he was quick to see that ball playing and the business management of clubs, at the same time and by the same men, were impracticable; he knew that ball players

might be quite competent as magnates, but not while playing the game; he was in the forefront of the fight against syndicating Base Ball and making of a Nation's pastime a sordid Trust; he was the pioneer to lead competing American Base Ball teams to a foreign land; he took two champion teams to Great Britain in 1874, and two others on a tour of the world in 1888-9; he was present at the birth of the National League, and has done as much as any living American to uphold and prolong the life of this great pioneer Base Ball organization.

When A. G. Spalding talks about America's National Game he speaks by authority of that he does know, because

he has been in the councils of the management whenever there have been times of strenuous endeavor to purge it from abuses and keep it clean for the people of America —young and old.

In this work Mr. Spalding, after explaining the causes that led him into the undertaking, begins with the inception of the sport; shows how it developed, by natural stages from a boy with a ball to eighteen men, ball, bats and bases; gives credit for the first scientific application of system to the playing of the game to Abner Doubleday, of Cooperstown, N. Y.: treats of the first Base Ball club; shows how rowdyism terrorized the sport in its early days; how gambling and drunkenness brought the pastime into disfavor with the masses, and how early organizations were unable to control the evils that insidiously crept in. He then draws a series of very forceful pictures of the struggle to eradicate gambling, drunkenness and kindred evils, and shows how the efforts of strong men accomplished the salvation of the great American game and placed it in the position it occupies to-day—the most popular outdoor pastime in the world.

Interspersed throughout this interesting book are reminiscences of Mr. Spalding's own personal observations and experiences in the game as player, manager and magnate, covering a period of many years. Some of these stories deal with events of great import to Base Ball, and others have to do with personal acts and characteristics of players prominent in the game in earlier days—old time favorites like Harry and George Wright, A. C. Anson, Mike Kelly, Billy Sunday and others.

This book should be in the library of every father in the land, for it shows how his boy may be built up physically and morally through a high-class pastime. It should be in the hands of every lad in America, for it demonstrates the possibilities to American youth of rising to heights of eminent material success through a determined adherence to things that make for the upbuilding of character in organizations as well as of men.

Preface

Since College Rules were first adopted in 1905, the fall of every year has found a new edition of the COLLEGIATE BASKET BALL GUIDE. The marked success that has attended each edition is a sufficient reason for the present issue and clearly shows the need that is felt for a book of its character. Basket Ball has increased in popularity among colleges to such an extent that to-day it holds a prominent position in the ranks of all athletics and has been accorded the fitting appellation of "King of Indoor Sports." It is to be said, too, that no branch of sport has been followed with a keener interest on the part of both player and spectator than that displayed by the lovers of this game.

To keep pace with the strides College Basket Ball has been making during the last few years, the GUIDE has grown from a scant hundred pages to over twice that in volume. The present issue contains articles covering the game in every section of the country, together with interesting data for the student of the game. Photographs of every college team obtainable have been reproduced and All Collegiate teams of the several sections have been chosen by the authorities of their respective districts.

The Editor takes this opportunity of thanking the committee and all others who have so generously and ably assisted him in the preparation of this 1912-13 edition of the GUIDE.

1, Dr. James Naismith, University of Kansas; 2, Dr. A. H. Sharpe, Yale University; 3, Lieut. P. D. Glassford, United States Military Academy; 4, Oswald Tower, Williams College.

MEMBERS RULES COMMITTEE.

Review of the Eastern Collegiate Basket Ball Season

BY RALPH MORGAN, UNIVERSITY OF PENNSYLVANIA.

For the first time in the history of the Eastern Inter-collegiate Basket Ball League, no one team demonstrated its superiority early in the season, so there was no runaway race. On the contrary, three teams were so evenly matched that in the very last game of the season, had Turner of Pennsylvania made one of three free tries for goal in the closing minutes of the game against Columbia, the race would have ended in a three-cornered tie—Columbia, Dartmouth and Pennsylvania. Turner having missed, however, the score at the close of this game was a tie and in the extra five minutes of play Columbia won the game in a sensational goal from the field from mid-floor, and, in winning the game, won the championship and took the Heppe Cup for the second consecutive year.

Notwithstanding the great interest in the league race, there was unusual appreciation of the usual good teams turned out by Swarthmore, West Point, Annapolis, Syracuse, Rochester, Pennsylvania State and the College of the City of New York. So much interest was manifest in the playing of these teams that it is too bad that a second league is not formed. It would, of course, make too cumbersome a schedule to include all these teams in the Eastern League, and the proper way to do would be to have two or more separate leagues and thus focus the already great interest there is in the work of these teams.

But the keenest interest was exhibited in the Eastern Intercollegiate League. While the teams started the season more evenly matched than ever before, if there was a favorite it was Pennsylvania, with four players of the winning five of the year previous remaining in its line-up; and yet

L. W. ST. JOHN,
Ohio State University.

DR. L. J. COOKE,
University of Minnesota.

MEMBERS RULES COMMITTEE.

there was no clear division of sentiment favoring any one team.

Columbia, it was known, would be dangerous, for while all of the champion players of the year before were lost by graduation, save Captain Benson, nevertheless the New Yorkers were known to have good material, and the other teams respected them from the start.

Cornell, which had come into its own in 1911, for the first time was the dark horse, while with the advent of Dr. Raycroft, late of the University of Chicago, at Princeton, the Tiger stock took a decided boom, and Princeton, for the first time in years, was regarded as a serious competitor.

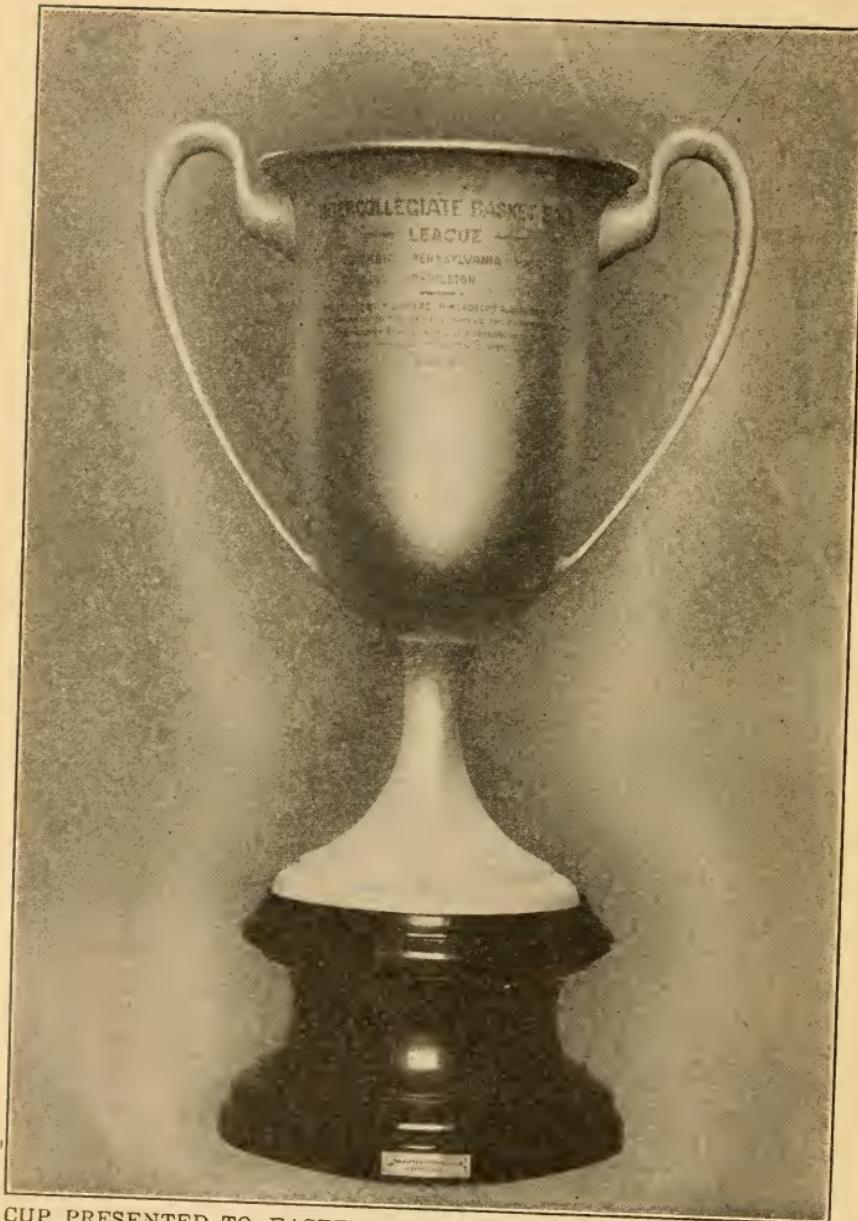

Yale, with the usual rugged Yale team, was to be feared as ever, while Dartmouth, the newcomer in the league, was somewhat of an unknown quantity.

Pennsylvania was a disappointment from the start. Turner, who the year before had proved to be a star, fell down miserably in foul shooting, and the Quakers lost game after game by the narrow margin of from one to three points, by virtue of miserable shooting from the foul mark.

Princeton and Cornell, however, lived up to pre-season predictions. The Tigers opened the season by trouncing Pennsylvania in a hard fought game, winning out by a solitary point, while Cornell and Dartmouth each took a fall out of Columbia when the New Yorkers were invading foreign parts.

After losing these two games the Columbia youngsters pulled themselves together splendidly and won the last eight games on their schedule without meeting defeat, although the games against Cornell at New York, Princeton at Princeton, and the two Pennsylvania games were battles all the way.

Pennsylvania got into her stride after the Christmas holidays and soundly trounced Princeton and Yale at Philadelphia, but then met with a setback when, after vanquishing Yale at New Haven, they lost out to Dartmouth by one point on the Hanover court.

CUP PRESENTED TO EASTERN INTERCOLLEGIATE BASKET BALL
LEAGUE BY F. J. HEPPE, PHILADELPHIA, PA.
To be won three times for permanent possession.
Won by Columbia, 1910-11, 1911-12.

The Pennsylvanians retrieved their defeat within the next few days, however, by defeating Dartmouth at Philadelphia, but then were vanquished again by Columbia at New York in a hard fought and well played game. Pennsylvania then surprised the followers of the game by taking two games from Cornell, which put the Red and Blue high again as championship contenders.

The unexpected defeat at the hands of Pennsylvania put Cornell out of the race just at the time when the Ithacans had figured on a fighting chance to win the championship. The finish was put to their hopes when, in the last game of the season, Dartmouth defeated them in handy fashion at Hanover, so that the season ended with Columbia in the first place, Dartmouth a well-merited second, Pennsylvania third, Cornell fourth, Princeton fifth, and Yale sixth.

Yale was the disappointment of the season. Coached by "Polly" Hyatt, the New Haven boys played the old fashioned game and played it splendidly on the floor, but they were decidedly weak in turning into points any advantage their good floor game gave them.

It is sincerely to be hoped that the New Haven boys this year pull out of the ruck which has been theirs the last two or three seasons and turn out a winning team. It is with regret that all followers of basket ball see Yale teams low in the race.

Herewith is appended the complete intercollegiate standing and a list of the scores:

The basket ball season of 1911-12 was one of the most successful since the game established itself as a collegiate sport. Never has competition been so keen, especially in the Eastern Intercollegiate Basket Ball League. All of the teams were evenly balanced, and the struggle for supremacy was bitter until the very close of the season, Columbia finally winning the championship after a hard, uphill fight.

As the teams were evenly matched, so were the players. Only one man in the East clearly stood out as a brilliant and all-around player. Benson, the Columbia captain, was all that a player should be, and was by far the best in the East.

FORWARDS.

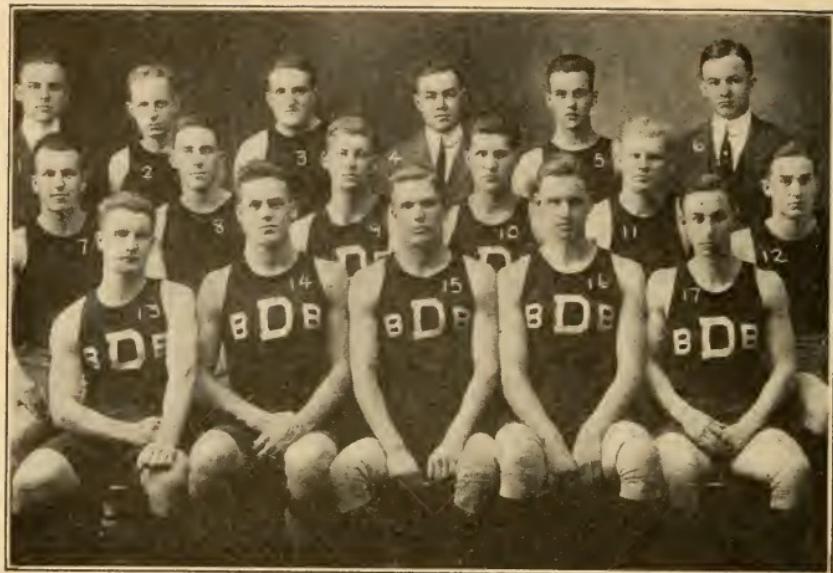

For the first time in many years, the East did not produce a man that could be termed an ideal forward. With the graduation of Kiendl and Mahon, the two sterling All Eastern for-

wards for 1910-11, the field was open for newcomers, but there were none to take up the mantle.

Although there were no brilliant stars in the ranks of the forwards, nevertheless there were many excellent players. Sisson of Dartmouth, Elton and Kaufman of Cornell, Meenan and R. Benson of Columbia, and Reilly of Yale all have to be considered for the two positions on the All Star team. The first named four were practically on a par and to differentiate between them is a difficult proposition. In the opinion of the writer, however, Sisson of Dartmouth and Elton of Cornell are entitled to the coveted positions.

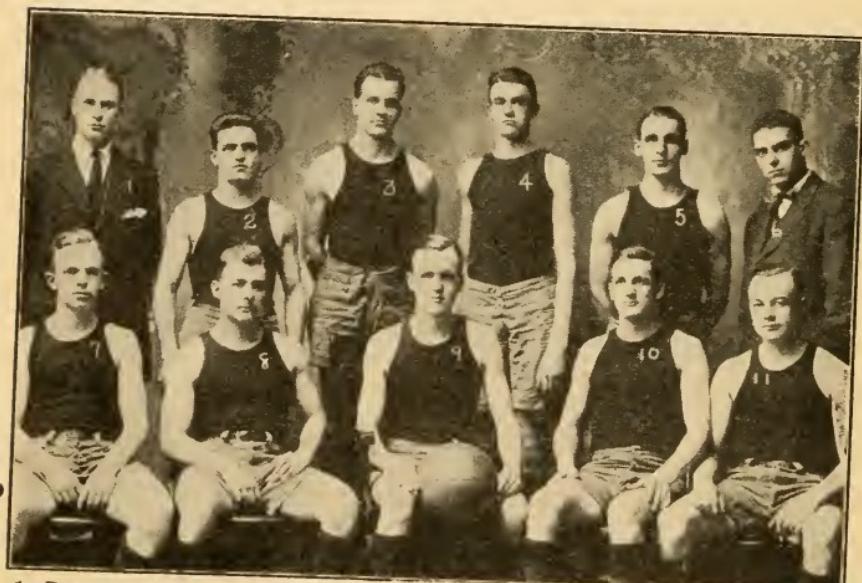

Sisson, the Dartmouth left forward, was the leading scorer of the Intercollegiate Basket Ball League for the season of 1911-12. In ten games he tallied 129 points, 28 baskets from the field and 73 from the foul line. This in itself is convincing evidence of his scoring ability, and a forward's efficiency is mainly determined by his success or failure in scoring. Sisson was an ideal shot, his form was perfect, always getting the ball away with an ease and grace that is so essential to effective and continued results in this department of the game, and always making his shots without resorting to a carom off the back-board, thus avoiding the inroads on good shooting which back-boards of various sizes, shapes and constructions make. His offense, consequently, was better than that of any other forward in the league, because of his wonderful scoring ability, although he lacked that lightning speed and shiftiness which would have made him an ideal forward. Some critics will say that Sisson was too erratic to be considered for a position on the All Eastern team and will point with telling effect to the fact that he failed to score a field goal in three of the league games in which he participated. The writer can only answer this objection by saying that it was more or less true of all the leading forwards in the league and that none of them ever showed the brilliancy that enabled Sisson to score seven baskets from the field in two different games.

On the defensive Sisson was all that could be asked of a man whose ability to score made his opponent devote most of his

time to defensive play. Sisson is an exceptionally rugged athlete, sturdily built and of more than ordinary stamina, and so, physically fit to prevent a heavy guard of the foot ball player type wearing him out. On these considerations Sisson is selected as the player most entitled to fill the position of right forward on the All Eastern collegiate team.

Elton, the captain of the best Cornell team that the Ithaca institution has produced in years, is the selection of the writer for the other forward position. His main strength was in those departments of the game in which Sisson was notably weak, and Sisson was peculiarly proficient in those departments where Elton was deficient. Elton was the aggressive, speedy type of forward, always "on his toes" fighting with every ounce of strength he possessed. He followed the ball continually, was a spectacular "dribbler," and was continually sacrificing himself in the interest of more perfect team work. He was an adept at those deceptive feints which prove the undoing of even the most experienced guards. His shiftiness in connection with his guards, able speed and ability to dribble make him an ideal man to carry on the "floor work," and an ideal partner for Sisson who would do most of the shooting for the team.

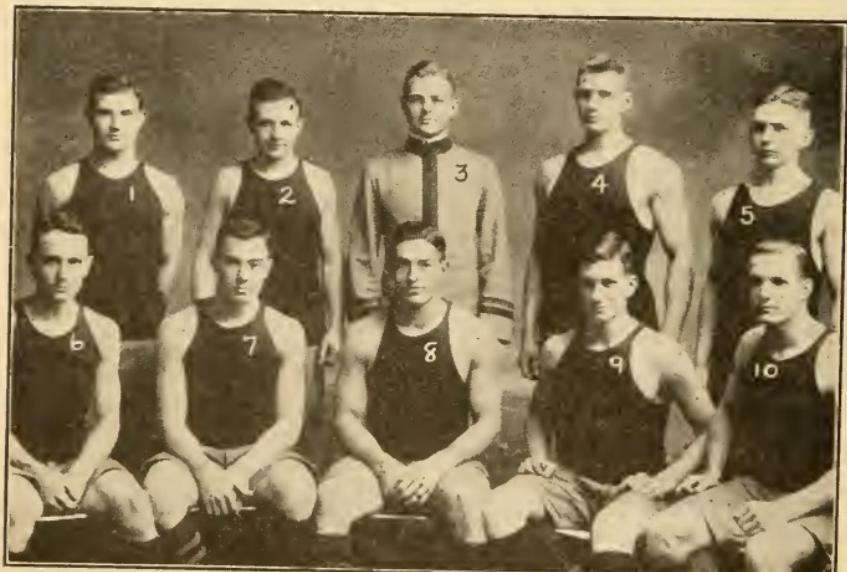

For the forward positions on the second team, Meenan of Columbia and Kaufman of Cornell are the most available. Meenan deserves especial mention, for this was his first year in intercollegiate basket ball. Not brilliant, but very dependable in the tight places; not exceptionally graceful, but very effective, he was a player of far above the average ability. His team mate on this second team, Kaufman of Cornell, was as fast as any man in the league, and his remarkable endurance gave him a decided advantage over his opposing guard. He was steady, reliable, a fair shot and a good dribbler, and seems more deserving of this position on the second All Eastern team than the rest of the league forwards.

CENTERS.

Of all the positions on a basket ball team, the most important and the most difficult to play is that of center. A really good

center must combine all the good qualities of a first-class forward and at the same time be as able to prevent his opponent from scoring as the best guard. Also he must necessarily be able to outjump his competitors, for perhaps the most strategic point of a basket ball game is the tap-off. This past season presents a peculiar situation in relation to this all-important position. There were two players that outshone all other centers in the league; the one, Pearce of Pennsylvania, possessing ideal qualifications for the position, and the other, Osterhout of Columbia, not pre-eminently fitted for the position, but nevertheless obtaining better results than all the others, Pearce of Pennsylvania included. Most of the critics have selected Osterhout as the center for the All Eastern team, but in the opinion of the writer, considering the deplorable lack of exceptional material at the guard position, an all star team would be vastly improved by putting Osterhout back at guard, to carry on the burden of the defensive work, at which he is unexcelled, and allowing Pearce to take care of the center position, for which he is so well equipped.

Pearce was the center of a team that failed to show the championship strength that was so freely predicted for it. With the rest of the team, he didn't develop quite as much as was expected, but is nevertheless the best man for the position of center on the All Eastern. He could jump, he had speed, and was very good on both the offense and the defense. And, in addition, he was a wonderful man around whom an exceptionally successful team could be built. He was a fighter, putting his whole heart and soul in the game, and yet at the same time never taking any unfair advantage of his opponent. And he was the kind of athlete who is an inspiration to his team mates, always doing his very best himself and continually bringing out the best in the rest of the team by timely directions and commands. Looked at from the standpoint of a team, and not as a collection of individuals, Pearce is undoubtedly the premier man for the pivotal position on the All Eastern team.

Other centers, worthy of more than just passing attention, are Swihart of Yale and Margosson of Dartmouth. Swihart was

the best man on an unusually poor Yale team, and it was only his effectiveness that prevented the total demoralization of the entire team. He is entitled to the position on the second team, and unquestionably will develop into a star of the very first magnitude when he gets the experience which will only come from years of play.

GUARDS.

The exceptional development of really wonderful forwards in the past few years has caused the coaches of the various college fives to devote their attention to producing guards who can specialize to perfection in the defensive end of the game, who can, in other words, go in a game and by the very closest kind of guarding and an almost utter disregard of offensive utility, keep the opposing team's star forwards entirely out of the game. As a consequence, the position has deteriorated proportionately to the crop of star forwards, and this year especially we find that there were no really first-class guards whose ability would warrant their being selected on a team to represent the East. This is stated as a general proposition, yet there is one exception. "Babe" Benson, captain of the Columbia championship quintette, was not only far and away the best guard of the past league season, but he was one of the best all around basket ball players of all time. He was the most important cog in the machine that attained championship honors mainly through dogged perseverance, and the kind of pluck that, despite overwhelming odds, makes a victorious stand at the very last ditch. Benson's basket ball career is finished; his own team mates, his rivals, and all followers of the sport will miss him, and he will leave a gap that will take a long time to fill. His career, as was fitting, finished in a blaze of glory. A five minute period was necessary to play off the tie in the Columbia-Pennsylvania game at Philadelphia on March 2, 1912. The only field goal made in that time, a sensational shot from beyond the middle of the floor, and the shot that brought the championship for the fourth successive time to Columbia, was made by Benson. He was proficient in every department of the game. Possessed of speed, the like of which we seldom see on the basket ball floor, he

combined with it an unerring eye for the basket, an almost perfect defense, and the ability to act instantaneously in emergencies. All the details of the game he knew perfectly; his experience on three prior championship teams acquainted him with all the finer points of play, and it will be a long time before another such guard is developed. In addition to being selected as left guard on the All Eastern team, he is undoubtedly best fitted to act as the captain of that team.

As previously suggested, the writer selected Osterhout, the Columbia center, as Benson's running mate in the other guard position. While Benson is helping his team on the offensive, Osterhout would be the one-man back, the bulwark of the defense. Osterhout was absolutely without a peer on the defense and, in the opinion of the writer, is the very best defensive man that has ever played the game. Built as sturdy as an ox, one would imagine that a fast man would run away from him, but, strange as it seems, he was plenty fast enough to keep up with all the others. When anyone scored on him, and it happened so seldom as to cause considerable comment, it was due to the interference of the Goddess of Fortune and not to any fault of Osterhout's. He guarded perfectly, and although it necessitated a proportionate lack of offensive strength, he, notwithstanding, managed to score at very critical moments. One could place absolute dependence on him, and he always did exactly what was expected of him. Nature didn't endow him with the perfect requisites of a star basket ball player, but an indomitable will, plus an undying, boundless ambition, made up for Nature's shortcomings. For guards on the second team, Mensel of Dartmouth, and Walton of Pennsylvania are selected.

Western Intercollegiate Champions.

Review of the Western Collegiate Basket Ball Season

By DR. L. J. COOKE, UNIVERSITY OF MINNESOTA.

Basket ball in the colleges of the Middle West is more popular than ever, and in a number of institutions the game has attained a place second only to that of foot ball. The great indoor game is frequently referred to as "the winter cousin of foot ball," not because in its style it resembles foot ball but rather because it demands, in a considerable degree, the same mental and physical qualifications necessary in the latter game, and larger numbers of people attend the games than attend any other game except foot ball.

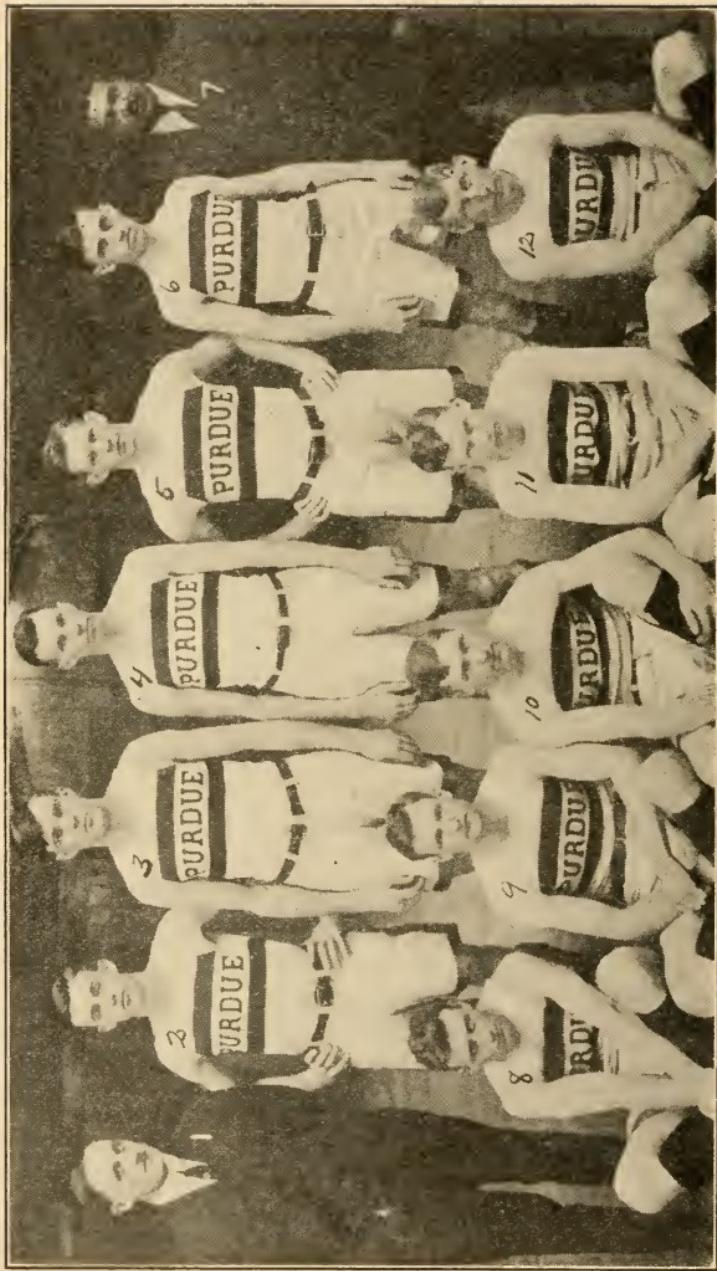

The season of 1911-1912 has been unusually successful and the game has held the attention of sport-loving people to a large degree. A noticeable improvement was seen in the style of play of many of the teams of the secondary schools, and an increasing number of schools and colleges have adopted the collegiate rules.

A number of new officials have been developed during the past season, though the total number is still too small to meet the demand for competent men.

Generally speaking, the rules have been administered better the past season than in former years, but there are a few isolated schools and colleges, where the athletic authorities and players have not grasped the true significance of the rules and clean sport does not predominate.

The Western Intercollegiate Basket Ball Association has contributed largely to the development of the game in the Middle West, and the prospects are encouraging for its continued development, not only from a technical standpoint, but also from the standpoints of rules, administration and ethics.

The new ethics in basket ball, or that most desirable basis for sport, in being realized to an appreciable degree, and this condi-

tion is being brought about by a number of coaches, officials and athletic directors. It is to be hoped that the ethical spirit may continue to grow, and when it has become general the "sting of defeat" will have been eliminated and the victors will cease to taunt and gloat over their defeated rivals; and while the players will play as hard as ever they will play fair, and this spirit will dominate the spectators, and the game will receive the heartiest support of both students and faculties. This is not a dream of an idealist but a condition actually realized in a number of the colleges of the Middle West.

THE WESTERN CONFERENCE (BIG EIGHT).

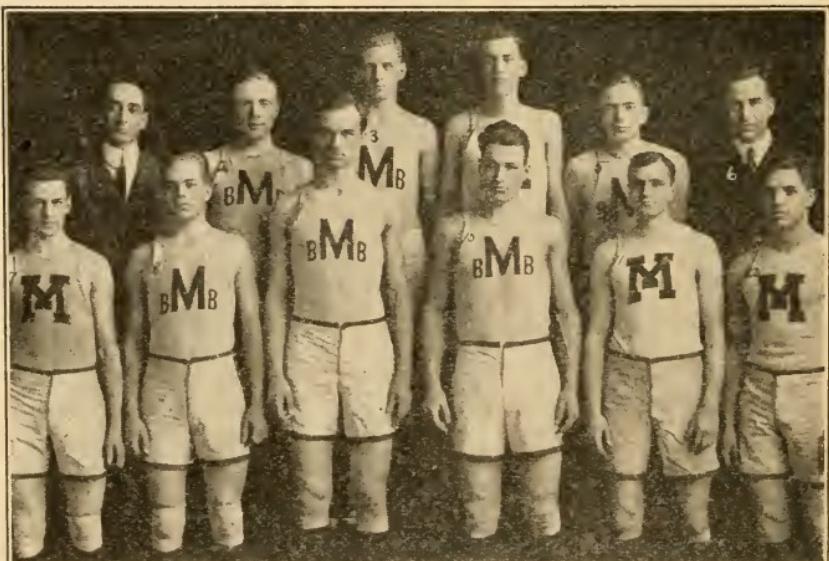

Two universities, Wisconsin and Purdue, went through the season with clean records, each registering 1.000 per cent. Never in the history of the Conference game have two teams finished the season each with 1.000 per cent., and may it never happen again is the hope of all concerned. Wisconsin played twelve Conference games and Purdue played ten. Unfortunately, for the first time in a number of years, these teams did not get together, through inability to arrange satisfactory dates, and the Conference championship for the second consecutive year was undetermined. Each team used rather a distinctive style of play. Purdue, with their matchless long passes and accurate goal shooting, invariably played in a brilliant series of spurts, while Wisconsin, somewhat stronger on defense, though as a team not as accurate in connecting with the basket, used an effective short pass and at all times played an exceedingly fast and consistent game. Stangel, their stocky forward, was their chief scorer. This player made a new Conference record, scoring a total of 177 points, 128 of which were from the field. He was ably supported by Johnson, his running mate. Scoville, captain and left guard, and Van Ghent, at center, both played remarkable games and are deserving of special mention. For Purdue, McVaugh, Malarkey and Barr were a triumvirate of sure goal throwers who were dangerous at all times during a game, while Stockton and Johnson played strong on defense.

Chicago started the season with four of her last year's team,

1, Goettier; 2, H. Paine, Coach and Mgr.; 3, Bell; 4, Pollak; 5, Norgren;
6, Sellers; 7, Molander; 8, Freeman; 9, Goldstein; 10, Paine.

but the loss of Captain Sauer, the mainstay of the 1910-11 team, made a vacancy hard to fill. However, they played their usual "fight to a finish" game and nosed out Minnesota for third place. Chicago was particularly effective with their shift position plays. They had a well balanced team.

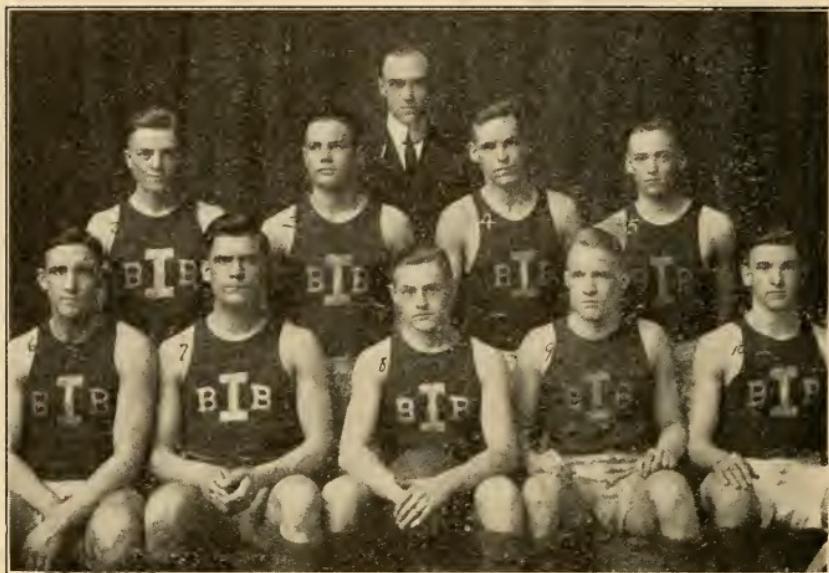

Minnesota started the season with three regulars, but lost their remaining guard, Robilliard, by the graduate rule, early in the season. The first game of their schedule was won from Illinois; they lost their second game to Wisconsin at Madison, and from then to the close of the season they about alternated in winning and losing, finishing in fourth place. Their two strongest games were with Chicago and Wisconsin at Minneapolis. In the latter the score at the end of the second half was tied at 26-26, Wisconsin winning in the extra period. Lawler, as in the two previous seasons, was the bright particular star of the Minnesota team and surpassed his previous Conference record of 147 points by 6, but this record, as previously mentioned, was eclipsed by that of Stangel of Wisconsin.

Illinois looked strong before the Conference season opened, having three regulars and several subs for material. Their two defeats by Minnesota and Wisconsin on their first trip were a great disappointment to them, and from then until they played Minnesota at Urbana they had a record of five defeats and no victories. They won from Minnesota, 13 to 10, and thereafter were more formidable and finished in fifth place.

Indiana lost their best scorer, Barnhardt, by graduation, and early in the season was deprived of the services of Captain Davis by injuries. Graves, who played center, was their best point maker. They played much better at home than on the road and finished in sixth place.

Iowa played only four Conference games, losing all by decisive scores, two to Wisconsin and two to Minnesota. They started the season with four regulars, but their game was not up to the Conference standard.

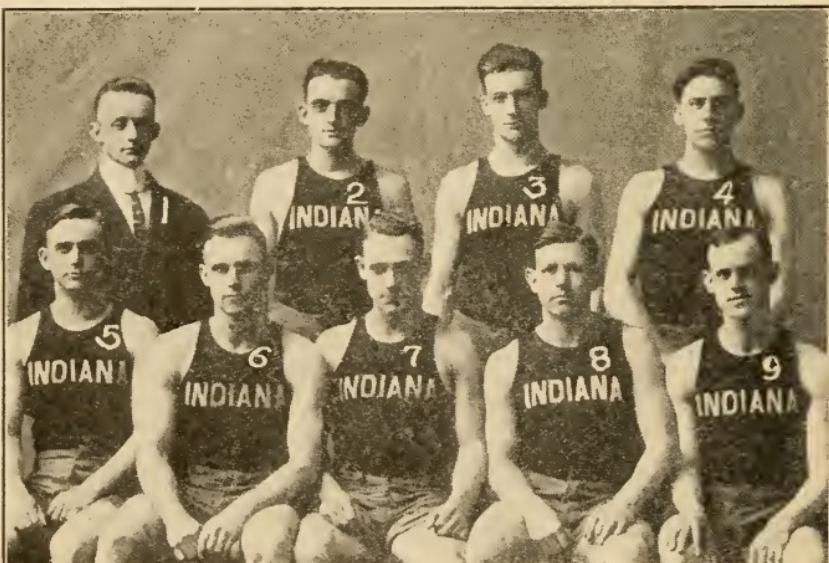

Northwestern also finished without a victory to their credit, losing eight games. The Lamke brothers, as, in the past two years, were their best players.

ALL-WESTERN COLLEGIATE TEAM.

All-Western Collegiate Team

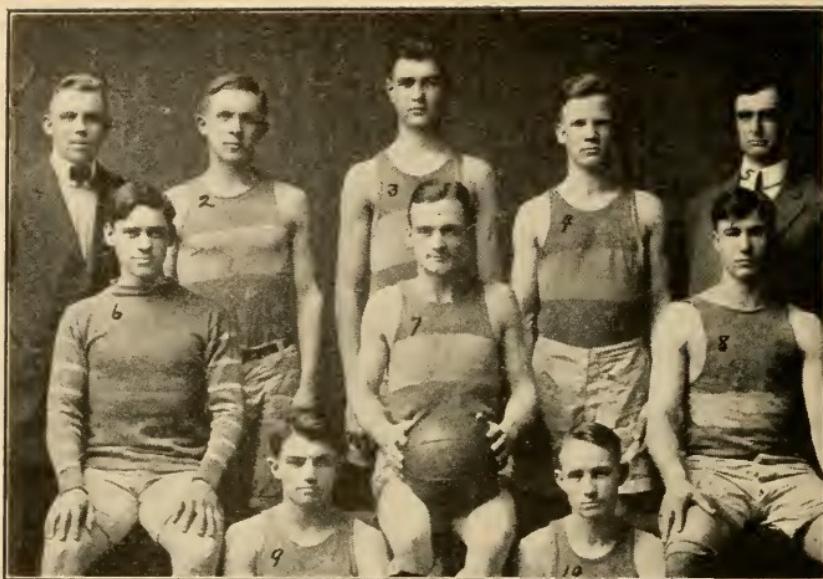

By CHRIS STEINMETZ, UNIVERSITY OF WISCONSIN.

<i>Position.</i>	<i>First Team.</i>	<i>Second Team.</i>	<i>Third Team.</i>
Right forward	Lawler, Minnesota.	Johnson, Wisconsin.	Barr, Purdue.
Left forward	Stangel, Wisconsin.	Malarkey, Purdue.	Goldstein, Chicago.
Center	McVaugh, Purdue.	Van Ghent, Wis.	Graves (Capt.), Ind.
Right guard	Scoville (Capt.), Wis.	Molander, Chicago.	Sawyer, Minnesota.
Left guard	Stockton, Purdue.	Hall (Capt.), Illinois.	Norgren, Chicago.

The season of 1912 closed with Purdue and Wisconsin undefeated and it is regretted by every follower of basket ball that a game or series of games was not arranged between these two splendid teams. Due to a conflict of dates in the early season and Purdue's refusal later to play, both teams remained content in their own sphere to claim the championship honor. Outside of the excellence of the two teams mentioned the other teams were inconsistent performers. As in previous seasons speed and accuracy in offense were developed more than the defense. Naturally there were many excellent scoring forwards, and on the other hand, fewer good guards.

FORWARDS.

For all-around good playing and consistency Lawler of Minnesota and Stangel of Wisconsin were the sensations of Western collegiate basket ball. By his good work the latter established a new Conference record in twelve games, having managed to score 64 field goals and 49 free throws, a total of 177 points, as compared to 143 points made by Lawler during the season previous. Stangel was the most formidable offense man on Wisconsin and averaged 5 1-3 field goals for each game. As predicted in my selection a year ago, Stangel developed into a star and his team mates realized his ability by looking for him as soon as the ball was started toward their basket. In spite of his being covered and almost safely blocked by his opposing guard when in the vicinity of his basket, where he was the most dangerous man in the league, he usually managed to score. It

cannot be said that he left his guard, as his record speaks for him and shows that only five baskets were scored by his opponents throughout the entire schedule. On the Iowa court early in the season he scored 13 field goals.

As a team mate for Stangel the writer's choice is Captain Lawler of Minnesota, who was the sensation of the season of 1911. In justice to him it must be said that he was playing this season on a mediocre team, the members of which were not able to get the ball for him, as did his team mates during the season previous. Then again, because of his record and ability, he was the hardest guarded forward in the league and in most instances special defenses were perfected to keep him out of the game as much as possible. Most of his baskets were made on long shots or on successful dribbles from the far end of the court. Like Stangel he also eclipsed last year's high scoring mark, having marked up 156 points as a result of his season's work. In playing the floor his value was the greatest to his team and with Stangel waiting for his passes in the scoring vicinity we have a lightning fast and point-getting combination of forwards. Either one could throw free throws, as both excelled at this department of the game.

Another star of the first water was Malarkey, of Purdue. This player, although a green man as a regular and suffering with an injury, was a star and bids fair to be this year's sensation. In ten games played he made 133 points, due, of course, in a great measure to the fact that he played on a team composed of champions. Playing on a poorer team and forced to get the ball oftener himself, he would undoubtedly show inexperience when compared to Stangel and Lawler. His team mate, Barr, was a veteran and one of the best floor men Purdue ever turned out. Johnson of Wisconsin ranked high as a forward and his floor work and ability to block were noted factors in Wisconsin's success. It might be stated that during the course of the season he caged 42 field goals and did not allow a single goal to be scored by his opposing guard. Had he fought harder and not side-stepped heavy scrimmages Goldstein of Chicago would have been in the running with the best forwards. At that he was a very

creditable performer and was what would be termed a "slippery," conservative player—a valuable man on any team. Gates and Dahringer of Illinois were very good performers, but both played their strong games during the latter half of the schedule. On Iowa's team, Captain Schmidt played well, while E. Lamke was the life of Northwestern's five.

CENTERS.

Of all the centers in the Conference Captain McVaugh, playing his third year on Purdue's team, was the classiest. His playing in every game was on the order of the spectacular and his ability to get the ball on the toss-up to the right man was his most valuable asset. McVaugh went through the season in grand style and in no game scored less than three field goals and generally kept his opponent well out of the game. He made an able substitute for his forerunner of last season, Charters, and with his having played his last game of collegiate basket ball Purdue will have a hard task to fill the vacancy left by him.

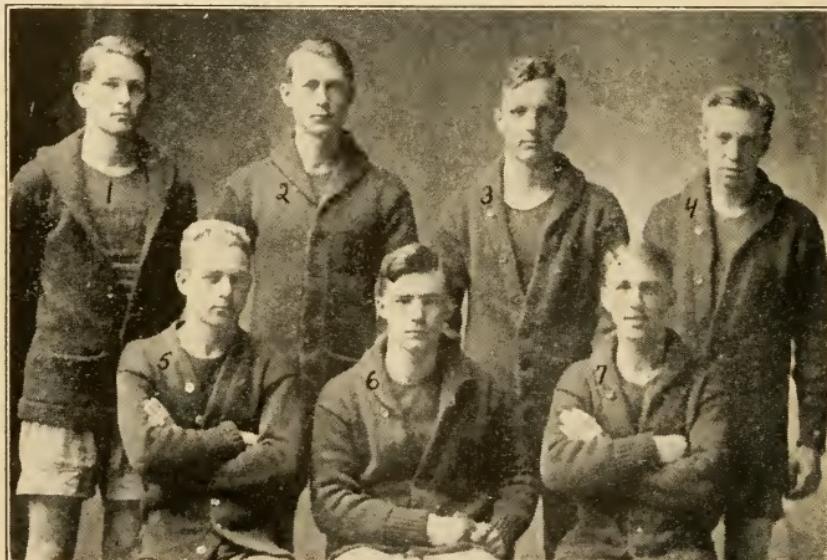

Van Ghent of Wisconsin ranks next in the writer's opinion as a center, his greatest value to his team being his wonderful speed and floor play. His playing showed such marked improvement that it is predicted that he will be one of the stars of the season of 1913. A battle royal would have ensued had he been pitted against McVaugh, but unfortunately they never met, and accordingly their playing against other centers must be the criterion.

Playing on a second-rate team, Captain Graves of Indiana put up a splendid game and only through his aggressive and consistent playing was Indiana able to give her opponents a hard game. Graves, handicapped by playing on a team that lost nine out of ten games, showed up remarkably well, never failing to score in any game and marking up 25 field goals and 35 free throws, a total of 85 points. This is an excellent record and Indiana is to be congratulated upon having so able a captain and player. It is to be regretted that he did not have the opportunity to show what he could do as a member of a first division team. Whipperman of Minnesota played a fair game, while Chicago had a good center in Goettler.

GUARDS.

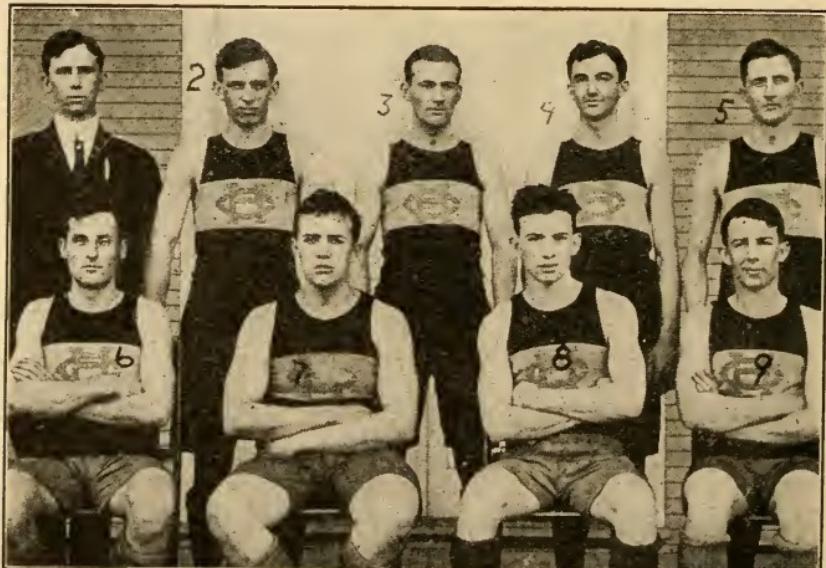

Although, as stated previously in this article, the offensive side of the sport to a certain degree has overshadowed the defensive, nevertheless with but few exceptions the majority of the men playing the guard position seemed to be satisfied with preventing their opponents from scoring. The game of to-day has arrived at such a point where a guard to be a valuable man to a team must practically be and have all the qualities of a forward.

Scoville, Wisconsin's veteran captain, approaches nearer to this standard than any other guard in the West. He has been the Cardinal's mainstay for the past three seasons, playing one season at forward and two at guard. His playing the past season outshone that of the two seasons previous and he assumed the stellar role in every game in which he took part. He was a past master in the art of dribbling, his record showing that he succeeded in caging 15 goals, nearly all on dribbles the length of the field. The more credit is due him, because he was always closely pressing his forward and in twelve games only eleven goals were made by his opponent, as compared to the fifteen that he himself scored. This truly is a wonderful record for a guard. He is endowed with all the good points so necessary in a guard, covers his man well, follows the ball, plays the floor with speed and accuracy and can at all times be depended upon to carry the ball up the field for a goal.

It follows that to select a team mate for a running guard like Scoville it becomes necessary to pick a defensive guard. In ex-Captain Stockton of Purdue we have the best defensive guard in the Western Conference. This player has a style all his own, permitting his man to run the floor at will to a certain point, but when his opponent and the ball come into the danger zone he is at his best. He not only covers his man well so as to make a shot hard, but has a way of keeping his man out of the game as far as scoring is concerned, without infringing on the foul rules. Rarely did he get credit for starring or making spectacular plays, for the reason that he played the kind of game as outlined. In three years of playing he has been the only guard to hold Lawler of Minnesota scoreless, having performed this feat on Minne-

HANOVER (IND.) COLLEGE.

sota's home court the past season. Because of his defensive style and since he rarely went past the center of the court, he did very little in the scoring line for his team, but many of the baskets scored by McVaugh and Malarkey were due directly to Stockton's blocking and getting the ball for them.

While he played in only nine games, yet Molander of Chicago is entitled to be selected as guard on the second team, having earned the same by his excellent playing in every one of those nine games. In the first Illinois game at Champaign, which ended in a victory for Chicago by the close score of 22 to 21, he scored 14 points and was mixed up in nearly every scrimmage. Again, in the Chicago-Wisconsin game on the court of the former, his free throwing and fast work on the floor kept his team in the running during the entire game, Wisconsin finally nosing out a victory by a score of 18 to 15. "Swede" Hall, as he is termed by his team mates and friends at Illinois, was another good guard. This man has done yeoman service for his college, playing at both forward and guard. It was as a guard, however, that he was at his best. Starting out as a forward and called upon to play guard he quickly adapted himself to the situation. His playing in the second Wisconsin game was remarkable. The Gophers had a first-class back field man in Sawyer, who, while he rarely went down the field to score, always covered his man well. Norgren of Chicago is another forward-guard and scored in every one of the eight games played by him, chalking up the grand total of 26 baskets. When he started a dribble from guard position he showed his real caliber. Other good cover men were Johnson of Purdue and Captain Woolston of Illinois, the latter performing especially well for his team.

The first team as selected, Stangel and Lawler, forwards; McVaugh, center; Scoville and Stockton, guards, for the reasons advanced, would make a combination hard to beat, each man being possessed of all the qualities required in his position and having at least two years' experience in collegiate basket ball.

Review of the New England Collegiate Basket Ball Season

BY OSWALD TOWER, WILLIAMS COLLEGE.

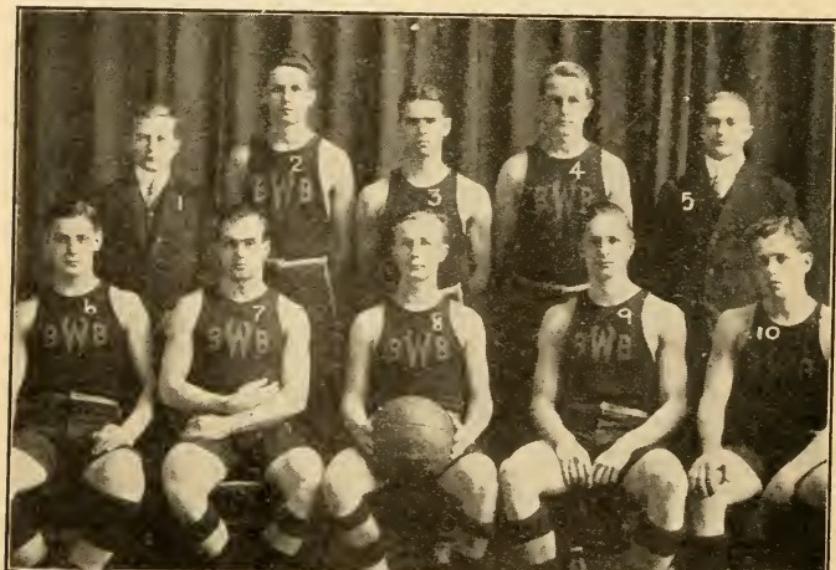

Basket ball weathered successfully another season in New England, even though the newspapers, upon which the success or failure of any sport largely depends, maintained an unfriendly and at times an unjust attitude. For instance, last winter one Boston paper criticised at considerable length the manner in which basket ball is conducted at a certain Eastern university, saying in conclusion: "This explains why basket ball is a failure at —— University." As a matter of fact, basket ball is and has been a complete success in every way at that particular university, yet the article in question attempted to convey quite the reverse impression. A sport that can withstand a constant opposition of this nature is not one that makes only a passing appeal to popular interest, but is one that has real and lasting merit; a sport that will re-entrench itself quickly and firmly in public esteem when the pendulum begins to swing in the other direction.

In some quarters of New England basket ball experienced a most successful season. Three features contributed to this success; namely, the splendid team turned out by Wesleyan University, the admission of Dartmouth to the Eastern League, and the adoption of the Collegiate rules by the Springfield Training School. Since the break in athletic relations between Brown and Dartmouth five years ago, Dartmouth had not been a member of the New England League, and had been as a consequence out in the cold to a certain extent as far as basket ball was concerned. Therefore, the entrance of the New Hampshire college into the Eastern League was expected to stimulate interest in New England. In this respect not only were expectations fully realized, but further than this the speedy team from Hanover proved to be a valuable addition from the standpoint of the

WILLIAMS COLLEGE, WILLIAMSTOWN, MASS.

older members of the league and assisted materially in making the season a success in other sections.

Wesleyan University again won the championship of New England, getting away with every game played against other members of the New England League, as well as defeating all comers outside of the league. Such a record speaks for itself. With every member of the championship team of 1911 eligible, and with a wealth of other material, Wesleyan was well prepared for such a clean sweep. Occasionally this team was forced to go the limit but the reserve power was always there in sufficient amount to meet emergencies. It was strong in every department, so strong that one would find it difficult to say wherein one department excelled another. Individually and collectively, the players displayed superb defensive power, yet the offense was in no way neglected, for the Middletown five was the highest scoring team of the East. Its claim to the championship of New England is of course undisputed; its claim to the championship of the East is well founded, and the writer is one of many who believes the title fully merited.

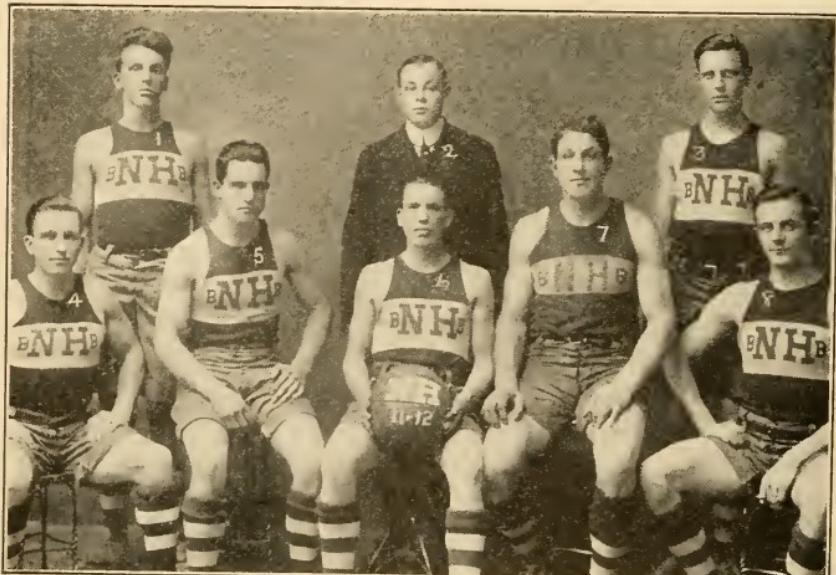

It has been stated that one of the features of the season in New England was the adoption of the Collegiate rules by the Springfield Training School, but more accurately perhaps, the feature was the splendid team turned out by this institution. Husky and aggressive, winning cleanly and handily every game on the home floor and playing wonderful ball on the road, this five was surpassed by a single team in New England. Springfield adopted the Collegiate rules too late to schedule games with all of the New England teams, but its double defeat of Brown, close game with Wesleyan and numerous victories over other strong teams leaves no room for doubt that it should be ranked second among the teams of New England.

Brown and Williams tied for second place in the league, the former producing one of the best teams in the history of basket ball at Providence—a hard, clean playing team that fought every inch of the way, and was never beaten until the final whistle blew. For the first time in five years Brown won a game from Williams and won it decisively. Lehigh, New Hampshire State,

NEW HAMPSHIRE STATE COLLEGE.

Rhode Island State and Massachusetts Institute of Technology were also defeated, while in the games lost, with the exception of the two Wesleyan games, Brown allowed the winning teams only a narrow margin of victory.

Williams was well supplied with good material when candidates were called out, and prospects seemed good for a team of the usual standard. But a series of mishaps befell the squad, affecting it so thoroughly, that only one player was able to take part in every game. As a result the team was not a playing unit, but was, on the contrary, a group of players, individually strong and collectively weak—a situation due very largely to the unavoidable misfortunes that beset the players. To this also may be attributed the lack of reserve power, for the Williams team lost several important games because it had nothing in reserve for the critical last few minutes of play. In spite of these weaknesses it must not be assumed that it occupied a lowly position among the best teams of the section. Brown, Colgate, Rhode Island State and New York University were each defeated once, while both games with Dartmouth, one of the games with Wesleyan, and the game with Union were lost only after the hardest of struggles. Skillful in advancing the ball, but weak in scoring; strong defensively, except upon a few notable occasions; clever individually in passing, dribbling and dodging—these were the striking characteristics of the Williams team.

Rhode Island State made things interesting for the important teams of the section, and defeated all of the minor teams. Hypothetical cases are unsatisfactory, but it should be stated that Rhode Island would have turned the tables on some of the leading teams if they had been played on neutral floors. New Hampshire State and Massachusetts Institute of Technology experienced the same handicap of playing the majority of the stronger teams away from home, and in view of the circumstances succeeded as well as could be expected. Among the preparatory schools, Cushing, Williston, Dean, Stearns and Andover turned out uniformly fast teams, Cushing, Williston and Dean especially ranking not far below the colleges.

1. Von der Leith, Brown University, forward; 2. Hayward, Wesleyan University, guard; 3. Crane, Wesleyan University, center;

SECOND TEAM.

Forward.....Sullivan, Brown
Forward.....Eaton, Wesleyan
Center.....Vietor, Williams
Guard.....Adams, Brown
Guard.....Wallace, Williams

In selecting the All New England team, the writer has adopted the plan—or the subterfuge, perhaps—of considering players of the New England League teams only, for which reason it might more truthfully be called the "All New England League Team." Furthermore; players have been selected who would form an ideal *team* rather than a group of individual stars. If due consideration is given to these facts, perhaps it will be more apparent why this particular first team was selected.

No one would venture to question the selection of Hayward of Wesleyan for one of the guard positions. His blocking, floor work and shooting were phenomenal throughout the season, his brilliant work being a feature of every game. But if one guard is to be the leader of a team's offense, the other guard must be primarily a defensive player. This requirement threw out Wallace of Williams, one of the most brilliant players in New England. Offensively and aggressively, Wallace was one of the best guards in the East, yet he would not fill the bill as the *defensive* guard on an ideal team. Crane of Wesleyan was selected as a running mate for Hayward largely because he would play the steady defensive game required. Throughout the season he held the best forwards to low scores, made it possible for Hayward to lead the offensive work; in short, maintained his end of a perfect guard combination. Adams of Brown played a hard, consistent game at guard; Page of Williams made a wonderful defensive record in the last four games of the season; Wetherell of Williams and Smith of Brown were among the best guards of the section, but were not playing with their respective teams when the season ended.

7, Zehner, Capt.; 8, Fisher; 9, Bartholomew.

BUCKNELL UNIVERSITY, LEWISBURG, PA.

Parkinson of Wesleyan was selected for the pivotal position, his gigantic size, combined with exceptional speed and accuracy, making him the ideal man for center. Vietor of Williams and Scholze of Brown were dependable centers, the former getting the tap on most of his opponents and both holding their own against other fast centers. Parkinson was the best center in New England, but Vietor ran him an exceedingly close second.

For the forward positions, Davidson of Wesleyan and Von der Leith of Brown were chosen. Davidson was chosen over his team mate, Eaton, because he was stronger on the defense, more experienced, and a more important factor in teamwork. Eaton, it might be added, was a splendid floor worker and easily the best all-around freshman player of the year. Von der Leith played a cool, heady game, was the most accurate shot in the league, and never failed to contribute his share to the score of his team. Freeman, the fast Williams forward, was out of condition because of injuries nearly the whole season. Sullivan of Brown and Hodge of Williams were good forwards.

If players outside the New England League were considered in these selections it would be impossible to omit Bauman and Merner of the Springfield Y. M. C. A. College, two of the best all-around players in the East. Their splendid physiques, great speed, cleverness in handling the ball, and general versatility made it possible for both of these to play any position well. Two other players of the same team, Smith and Nelson, could establish claims to positions on the All New England team, the former developing rapidly into one of the best guards of the section, and the latter playing a brilliant though somewhat erratic game at forward. Holden of New Hampshire State, one of the highest scorers in New England, and Sullivan and Tully of Rhode Island State should be ranked among the leaders.

1, McFarland; 2, Jordan; 3, Mattson; 4, Stewart, Coach; 5, Cate; 6, May; 7, Burdick; 8, Walker; 9, Cooper, Capt.

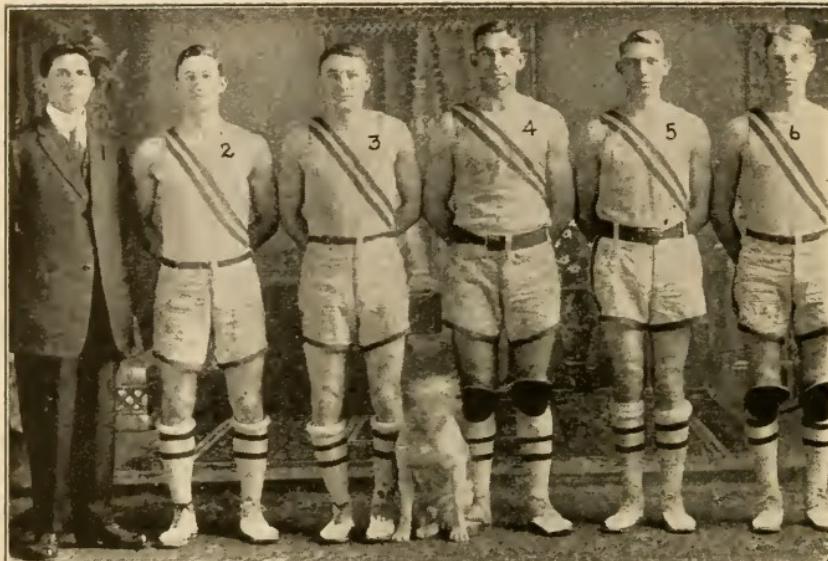

OREGON AGRICULTURAL COLLEGE, CORVALLS, ORE.
Northwest Intercollegiate Champions.

Review of the Northwest Collegiate Basket Ball Season

By J. F. BOHLER, WASHINGTON STATE COLLEGE.

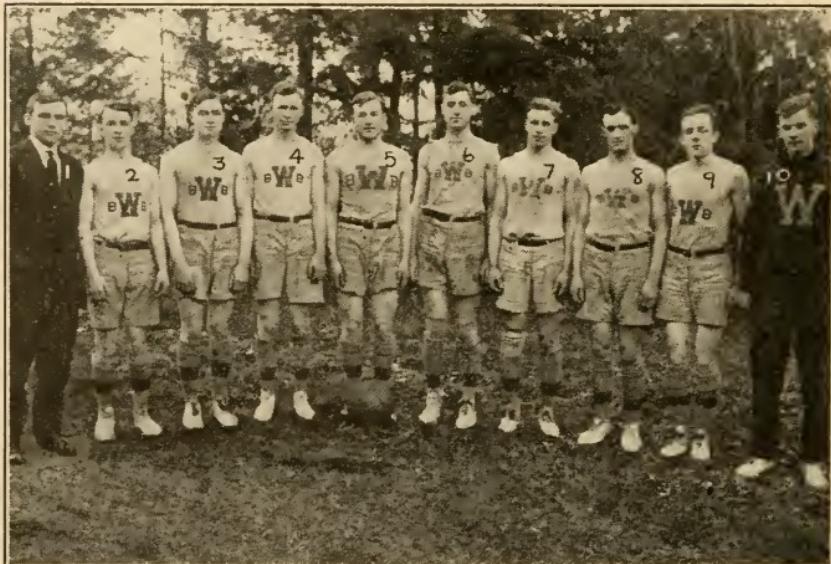

The Northwest Collegiate Conference basket ball season of 1911-12 was unusually interesting, due to the fact that the race for the championship was a close one. It was not determined until the University of Washington made her southern trip to meet Oregon Agricultural College and the University of Oregon. It was evident before hand that the four games to be played would be hotly contested, as the teams were known to be very evenly matched. The scores, 18 to 14, 9 to 8, 17 to 14, and 17 to 13, bear out this supposition. Previous to this trip the University of Washington had not lost a game, though some of the scores had been very close. The champions of 1910-11, however, did not fare as well in Oregon as they did on their own floor and in the Inland Empire. All four games played against the "Webfooters" were lost, thus putting the former champions into third place, with Oregon Agricultural College holding the championship and the University of Oregon second place.

The situation with reference to the championship is decidedly peculiar and anything but satisfactory. Owing to the geographical location of the Conference towns it is impossible to arrange a schedule in which all teams play the same number of games. Had the University of Oregon played the same number of games on her Inland Empire trip as did Oregon Agricultural College, without question she would have tied the latter for first honors, as the quintets in Eastern Washington were weak and lost all games played to both these teams. As it is each one of the Oregon aggregations lost but two games. Oregon Agricultural College, however, played one more game than did the University of Oregon, giving her the advantage as far as the percentage is concerned. Owing to existing difficulties these two schools did not meet in a series of games and so the relative strength of the two

UNIVERSITY OF WASHINGTON, SEATTLE, WASH.

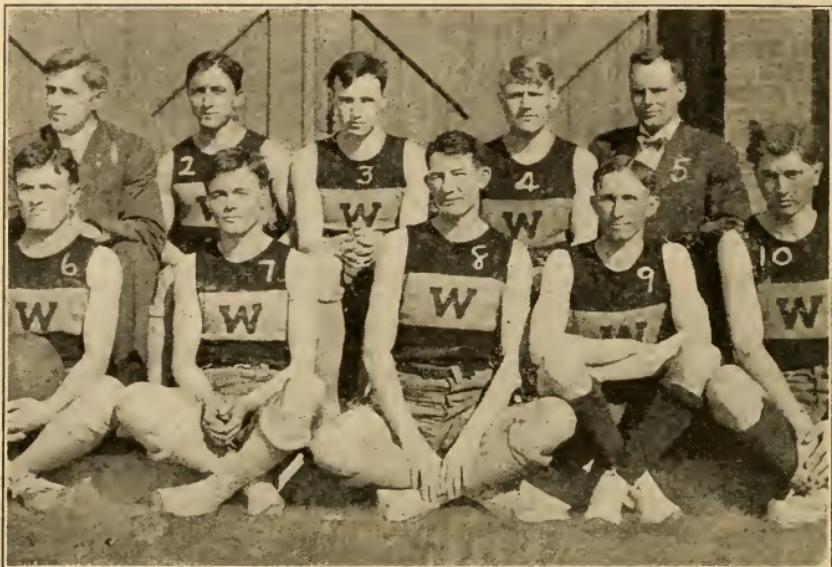

teams is still a question. Washington, on the other hand, assumes that the Oregon teams are no better than theirs, since they broke even with both of them and won all other games played.

Oregon Agricultural College won the championship because they had a well balanced team of good and reliable players, together with Cooper, their captain, who never failed his team in a pinch. In addition to this, Coach Stewart had developed a very effective mode of defense and the other teams, being unaccustomed to this style of play, were unable to break through his guard. This is Dr. Stewart's first year in the Northwest.

The University of Oregon started the season with four veterans, two of whom were members of last season's All Northwest team. In addition to this they had Rader, a freshman, who hailed from Medford High, where he had been the star member of the team that had won the scholastic championship of Western Oregon. From this material Coach Hayward developed an aggregation that was in the running till the end. Had they not been compelled to cancel one of the games scheduled with Washington State College they would undoubtedly have tied Oregon Agricultural College for the championship honors.

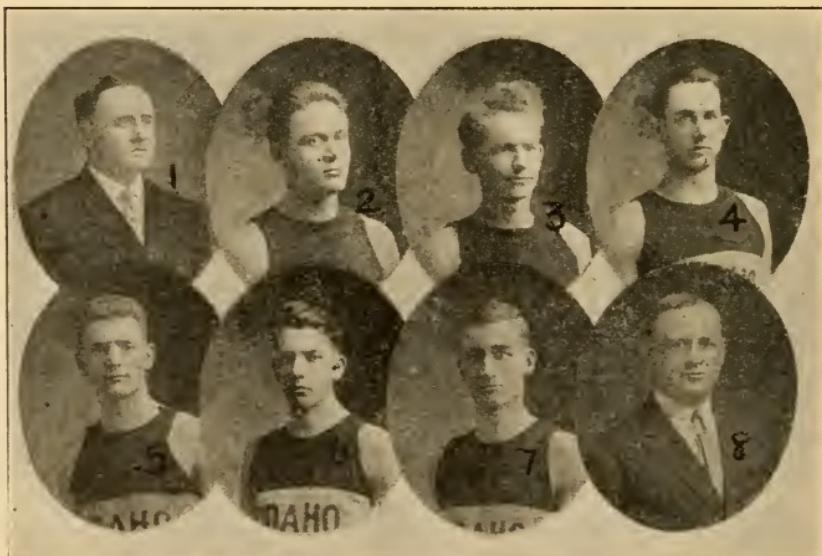

The University of Washington, last year's champions, entered upon the season with a new team, since Olsen, the captain-elect and only member of last year's team to return, was ineligible. They were, however, fortunate in having among their freshmen two exceptionally good men. These men, together with a number of last year's subs, made a formidable quintet. They opened their season with a trip into the Inland Empire, where they easily cleaned up everything and showed that even though their team was new they still played up to their championship standard. They also won all games played on their home floor, but were not as successful on their trip to Oregon at the close of the season.

Washington State College had a weak team. Real basket ball material was decidedly low. Though they had as a nucleus two of last year's players, one of these was taken sick at the beginning of the season and compelled to quit the team; there were no other men available who had had any basket ball experience. The result was an off year.

1. Bohler, Coach; 2. Kienholz; 3. Ritter; 4. Sampson; 5. Anderson, Graduate Mgr.; 6. Knight, Capt.; 7. Williams; 8. Lowry; 9. Hunt; 10. Reilly.

WASHINGTON STATE COLLEGE, PULLMAN, WASH.

1. Griffith, Coach; 2. Buffington; 3. Nufer; 4. Loux, Capt.; 5. Kinnison; 6. Perkins; 7. Soulen; 8. Larson, Graduate Mgr.

UNIVERSITY OF IDAHO, MOSCOW, IDAHO.

The conditions at the University of Idaho were no better than those at Washington State College. Loux was the only veteran to return. The new material was inexperienced. Coach Griffith was, therefore, up against the proposition of developing a new machine from green men. As far as victory was concerned their season was disastrous.

The basket ball league is indebted to Gonzaga College of Spokane, Wash., and Willamette University of Salem, Oregon, for coming to its support when it was threatened with dissolution because Whitman College withdrew. On account of the great expense incurred in bringing the coast teams into the Inland Empire, the financial burden would have been more than the managements of the remaining institutions were able to bear. Basket ball would have been seriously handicapped had not these institutions assumed a portion of the financial obligations of these trips.

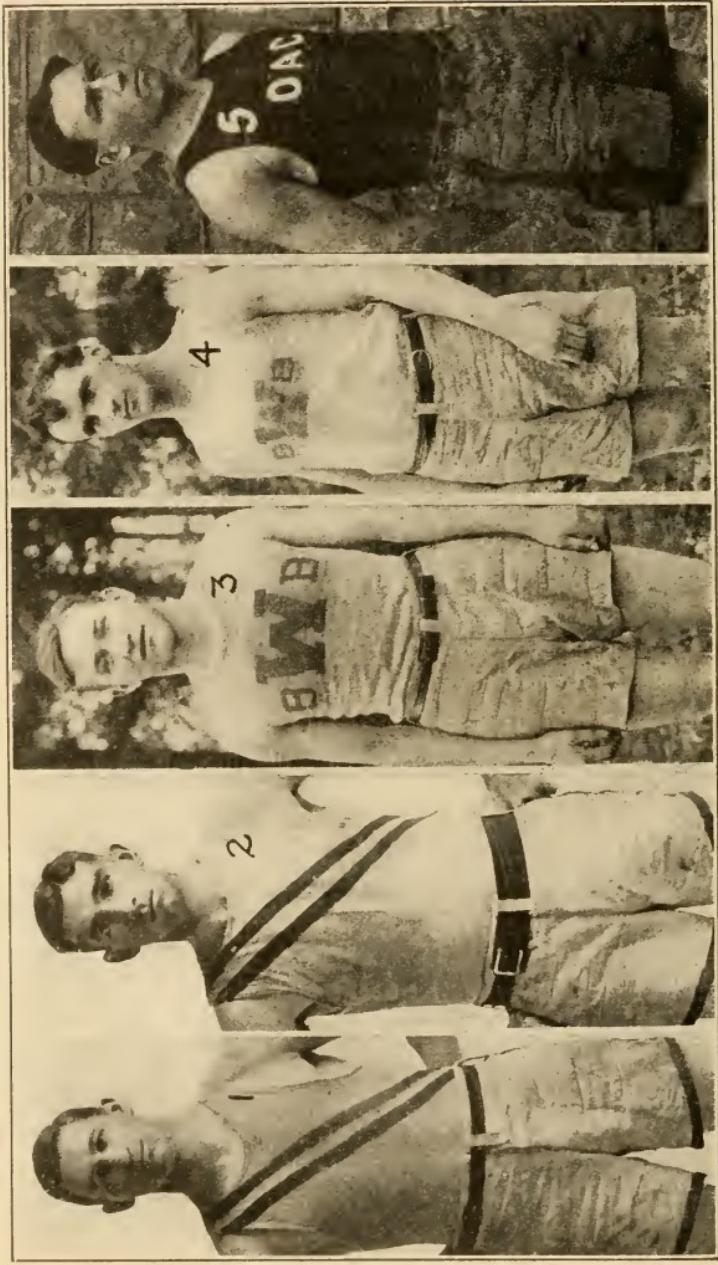

Gonzaga College was represented by a fast team, playing a good game. They won from Washington State College and from Oregon Agricultural College, the northwest champions, but lost to the University of Washington and the University of Oregon. Gonzaga has for a number of years had strong teams. They have the advantage, however, of playing all their games on their home floor.

Willamette's team was not as strong as that of Gonzaga. They had practically a new lineup which accounted for the fact that their showing was not as good as it had been last year.

The prospects in the Conference are bright for a good season next year. Most of the institutions will have teams composed of veterans, and are looking forward to a splendid season.

The standing of the league is as follows:

	Won	Lost	P.C.
Oregon Agricultural College.....	9	2	.818
University of Oregon.....	8	2	.800
University of Washington.....	8	4	.667
Washington State College.....	3	10	.231
University of Idaho	1	11	.083

1. Jamison, University of Oregon, forward (captain); 2. Fenton, University of Oregon, center; 3. Staats, University of Washington, guard; 4. Keeler, University of Washington, guard.

ALL-NORTHWEST COLLEGIATE TEAM.

All-Northwest Collegiate Team

By J. F. BOHLER, Washington State College.

Forward	Jamieson, University of Oregon
Forward	Cooper, Oregon Agricultural College
Center	Fenton, University of Oregon
Guard	Staatz, University of Washington
Guard	Keeler, University of Washington

In making the selection for an All-Northwest team the writer took into consideration the choice as made by the coaches of the several teams. There was very little difference in the lineups as selected by these men, so the choice of this team has been a comparatively simple matter.

Jamieson is first choice as forward. He is large and strong, a hard worker, and a consistent scorer. He is especially good on running shots under the basket, a form of play which is hard to guard. He is a natural leader and is, therefore, my choice as captain. This is the second year that he has been chosen for the All-Northwest Team.

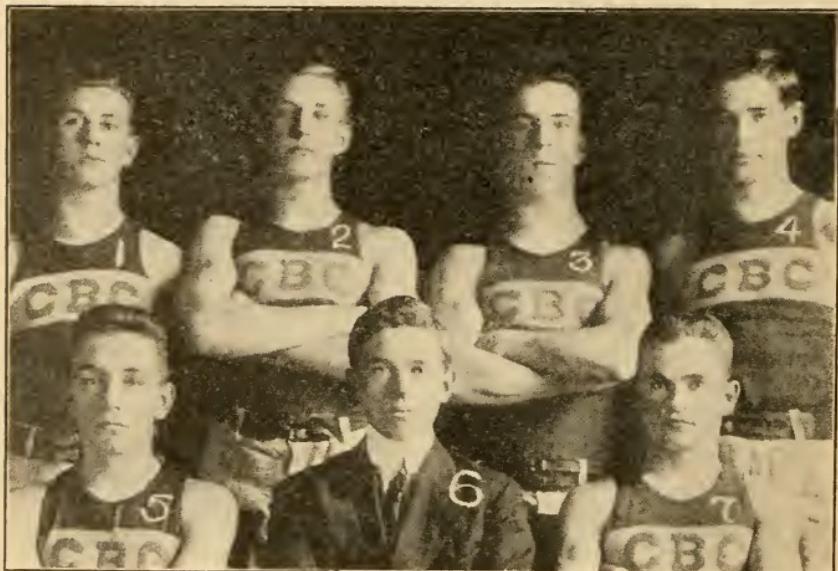

Cooper would be an admirable running mate for Jamieson. He is an exceptionally dangerous man when left unguarded, for he is able to locate the basket from any angle, as good on long shots as on short ones. He is also the best foul goal shooter in the Conference and would take care of this phase of the work in a capable manner. Byler, a freshman of the University of Washington, deserves special mention. He is a scrappy player and did very creditable work for his first year in collegiate basket ball. Burdick of Oregon Agricultural College and Williams of Washington State College, the midgets of the Conference, also deserve mention as forwards. They were both fast and shifty and able to take a great deal of punishment. Their size and weight proved a disadvantage to them, for Burdick tipped the scales at only 109 and Williams at about 125.

Fenton is named for the center position in preference to Savage of the University of Washington for no other reason

1, Connoley, Mgr.; 2, O'Shea; 3, McKevitt; 4, Higgins; 5, Mulholland, Capt.;
6, Crowley; 7, Russel; 8, Maguire; 9, Raftis; 10, Burns, Coach.

CHRISTIAN BROTHERS COLLEGE TEAM, PORTLAND, ORE.

than that he is the more experienced man at the game. Fenton's size and weight are in his favor. He is good on long shots and can be relied upon in tight places. This is Fenton's second year on the All-Northwest team. Savage of the University of Washington made a very creditable showing as a center. This was his first year as a Northwest collegiate player. He made good from the start. He is a naturally built basket ball player, being long and rangy. With another year's experience he will no doubt make a position on the "Paper" team. Loux of the University of Idaho also played the center position well, but lacked the support to bring his work into the limelight.

Though Staatz played forward this past season his position previous to this was that of a guard. When Olsen, All-Northwest forward of last year's team, was compelled to drop out on account of a condition in his class work, Staatz was shifted from guard to forward. He is fast and clever at shooting baskets. This, together with close guarding and his power of endurance, fits him better than any other man in the Conference for the position of running guard.

Keeler deserves the other position at guard for his consistent work. He can be depended upon at all times. Besides keeping his men closely covered he is exceptionally active on his feet, is rugged, can play the floor well, and has the art of blocking down fine. He could be used to advantage as the defensive guard. Mattson and May, both of Oregon Agricultural College, were strong contenders for guard positions. They are both large, husky men, and were perhaps the tightest guards in the Conference. Though Mattson is a steady, consistent player, he is not as brilliant as Staatz or Keeler. May played a great game, but participated in only four games, due to an injury received during the first part of the season.

It may seem strange that Oregon Agricultural College won the championship and that only one of her men has been chosen for the All-Northwest team. Her team was, perhaps, better balanced than any other in the Conference. However, outside of Cooper, there were no other stars in the aggregation.

UNITED STATES NAVAL ACADEMY, ANNAPOLIS, MD.

Southern Intercollegiate Champions.

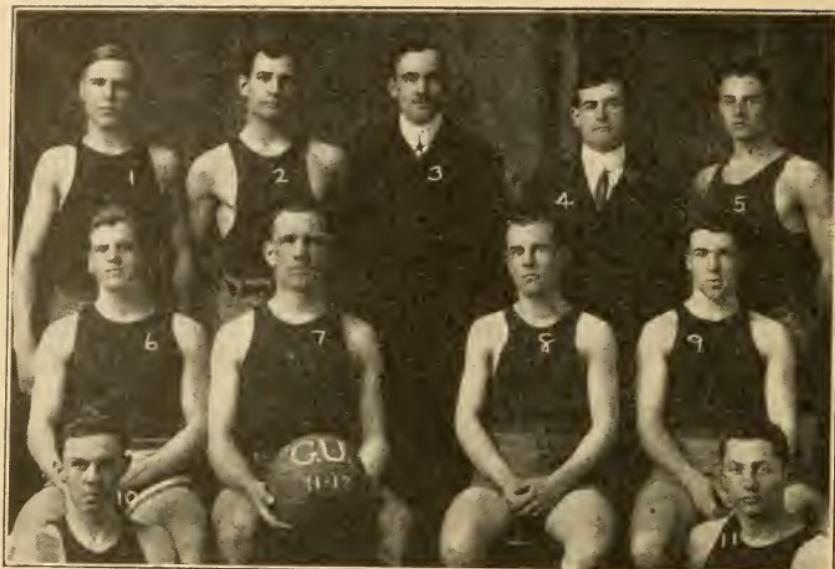

Review of the Southern Collegiate Basket Ball Season

BY JAMES E. COLLIFLOWER, GEORGETOWN UNIVERSITY.

The past season saw basket ball more firmly established among the Southern colleges and each year during the past five or six basket ball has been winning over a large number of followers. When the larger colleges in this section clashed on the courts it was, generally speaking, anybody's game, and this fact aided materially in making the game popular.

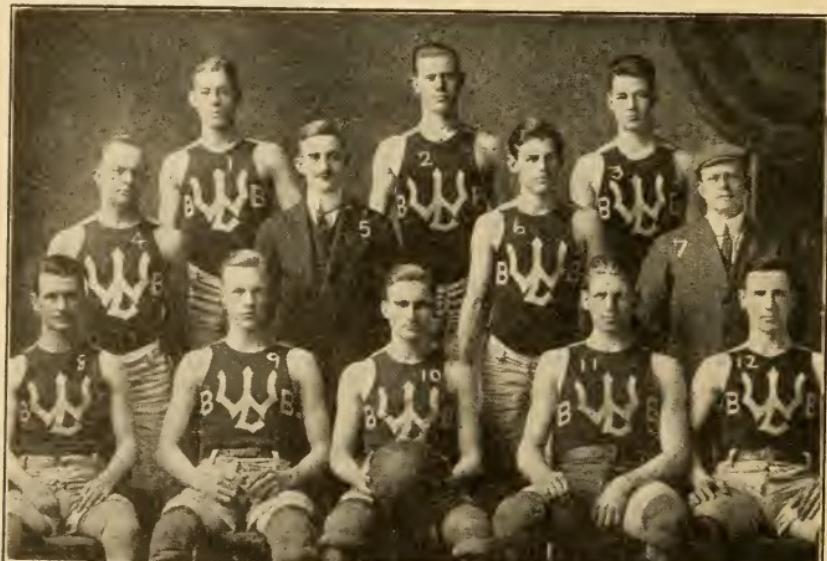

The Naval Academy placed in the field a team which unquestionably took off first honors. This team played nine games and had on its schedule some of the best teams in the South and East. St. John's of Brooklyn, St. John's of Annapolis, Dickinson, Georgetown, Yale, Catholic University, New York University and Baltimore Medical College were defeated by the Middies, and Swarthmore alone succeeded in triumphing over Navy. Throughout the season the Middies played a consistent and splendid game and Swarthmore, possessing one of the best quints in the country, found it necessary to fight every minute in order to administer the only defeat suffered by Navy. It was a treat to see these teams struggling for victory and Navy, after a game struggle, bowed in defeat to a more formidable quint, the score being 27 to 19.

Georgetown had by far the hardest schedule of any Southern college. Seventeen games were played and from eleven Georgetown emerged victorious. Like Navy, the Blue and Gray quint competed against some of the best teams in the East and South. The quints which succumbed to Georgetown's warriors were: University of Pittsburgh, University of Virginia (two games), the quints of Washington and Lee, and New York Universities, Dickinson, Catholic University, Loyola College, University of Maryland, Baltimore Medical College and Franklin and Marshall. Defeats were administered to the Blue and Gray by Navy, West

WASHINGTON AND LEE UNIVERSITY, LEXINGTON, VA.

Point, University of Virginia, Bucknell, St. John's of Brooklyn, and New York University. Georgetown was represented by one of the best teams in her history and deserves, beyond question, second choice. St. John's of Brooklyn and Bucknell were the only teams to succeed against Georgetown in the Capital City.

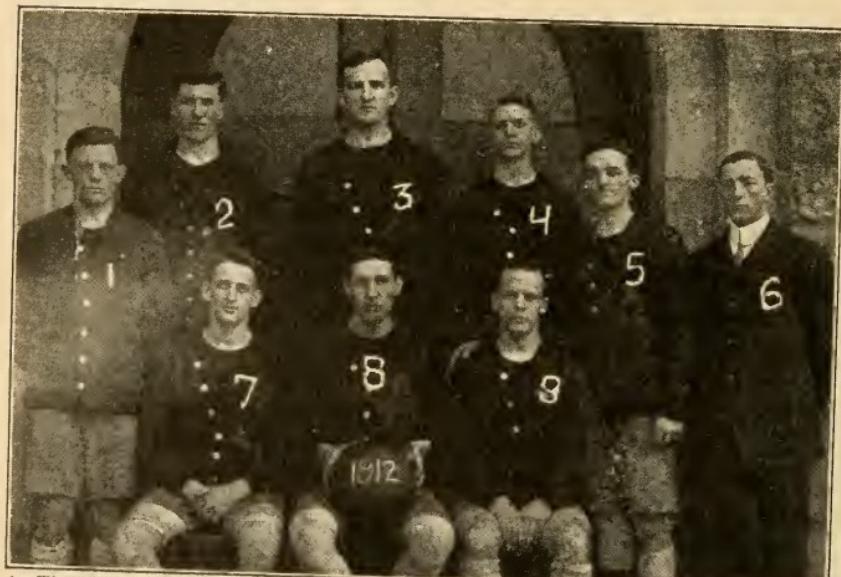

The University of Virginia can also boast of a good team for the 1911-1912 season. In eight out of a series of twelve games the Orange and Blue triumphed over her opponents. Only Southern colleges were, save in one or two instances, on Virginia's schedule and it is hoped that this season teams from other sections will be met. I feel safe in saying that Virginia will render a good account if this course is pursued. Though hard hit by graduation, "Pop" Lanigan, coach and trainer, succeeded in developing the available material into a strong combination and credit is due him and his charges for their performances. The only teams to succeed against Virginia were Washington and Lee (one out of two games), Guilford College, and Georgetown (two out of a series of three games).

The team representing St. John's of Annapolis, one of the recent additions to the list, did credit to the college and themselves and should, due to the fact that they will have practically the whole squad in line next year, be strong contenders for first honors. Ten games were played and six were placed on the right side of the ledger. Navy, St. John's of Brooklyn, Baltimore Medical College and Gallaudet College succeeded in scoring a victory against the Maryland boys. The writer is pleased to see the progress this aggregation has made and wishes them continued success.

The team wearing the colors of Loyola College had a busy season and won twelve out of sixteen games played. Gallaudet College and the University of Maryland suffered two defeats at their hands. Against Catholic University the Loyola boys succeeded in winning one out of two, and Georgetown after a hard and close game, the score being 20 to 18, triumphed over Loyola. This record augurs well for the future of Loyola's representatives and under Captain-elect Peters great things should be recorded.

1, Barnett; 2, Preston; 3, Harrison, Capt.; 4, Hart; 5, Gaiser; 6, Meadows, Mgr.
STATE UNIVERSITY OF KENTUCKY, LEXINGTON, KY.

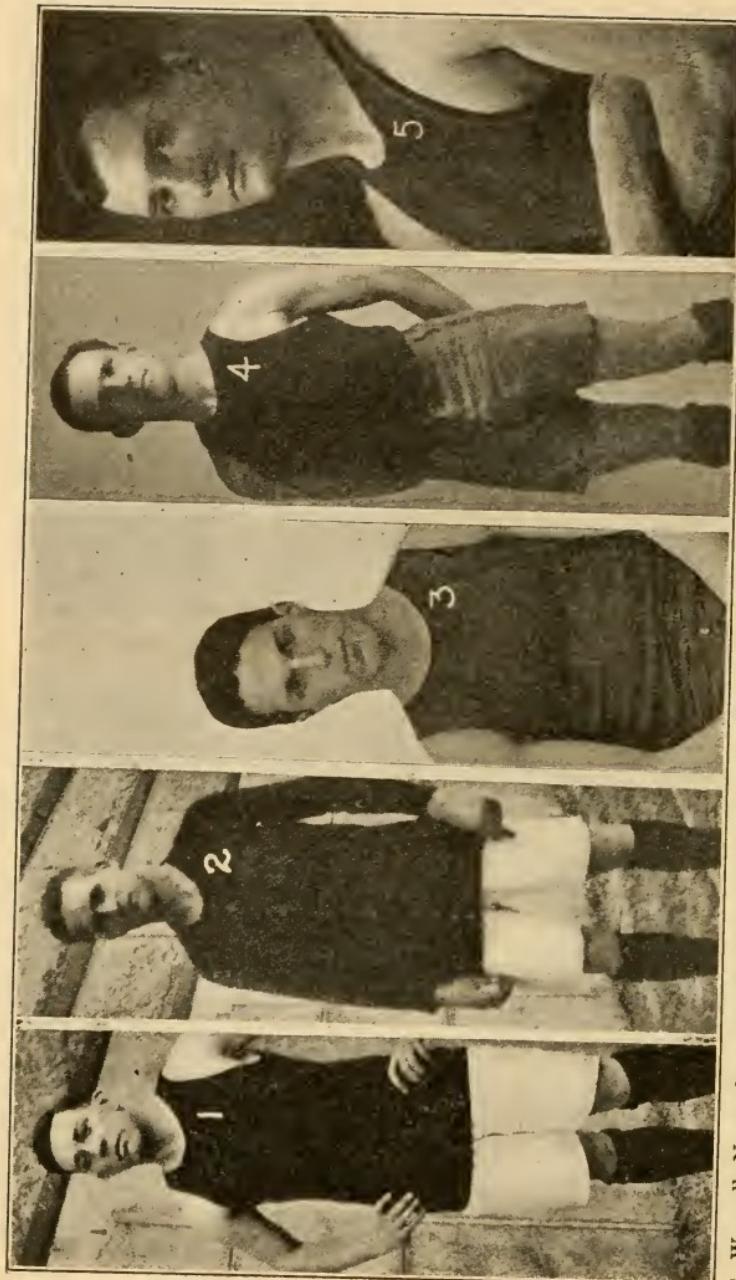

1, Thomas; 2, Graham; 3, Dotterer; 4, Lindberg; 5, Ramsey; 6, Lore, Mgr.;
7, Mates; 8, Hawke, Capt. and Coach; 9, Nicholls.
ALLEGHENY COLLEGE, MEADVILLE, PA.

The Virginia Polytechnic Institute quint is credited with six victories out of nine games played. The majority of the teams met by the boys from Blacksburg were not representatives of nor in a class with the larger Southern colleges. Washington and Lee, and Trinity of North Carolina were on the V. P. I. schedule and carried off the honors. This team is a late arrival and next year should see them reaching out and contending against all the Southern colleges.

Gallaudet succeeded in winning but two out of nine games. This is due to the fact that they have but recently taken up this sport and to the further and more important fact that contests were arranged with teams out of their class. Injuries played havoc with this quint and these men deserve credit for their work. I appreciate the fact that they were at a great disadvantage in every game, but predict that this season, with the good nucleus they will have to work on, a much better showing will be made.

Catholic University and Baltimore Medical College engaged in some interesting contests and the University of Maryland has again taken up the sport.

1, Wenzell, Navy, forward; 2, Ertz, Navy, guard; 3, Kearns, University of Virginia, forward; 4, Schlosser, Georgetown University, center; 5, Colliflower, Georgetown University, guard.

Center.....McReavy, Navy
Guard.....Neff, Virginia
Guard.....Wild, Navy

The selection, from the various colleges in the South, of five men whose performances entitle them to places on the mythical combination, termed the "All Southern Collegiate Team," is, to say the least, a difficult task and in most instances a thankless one. The writer, in naming the following men, has been guided by a determination to do no one an injustice and has carefully studied the records of the various players. Moreover, it was my good fortune to see these men perform, both at home and abroad.

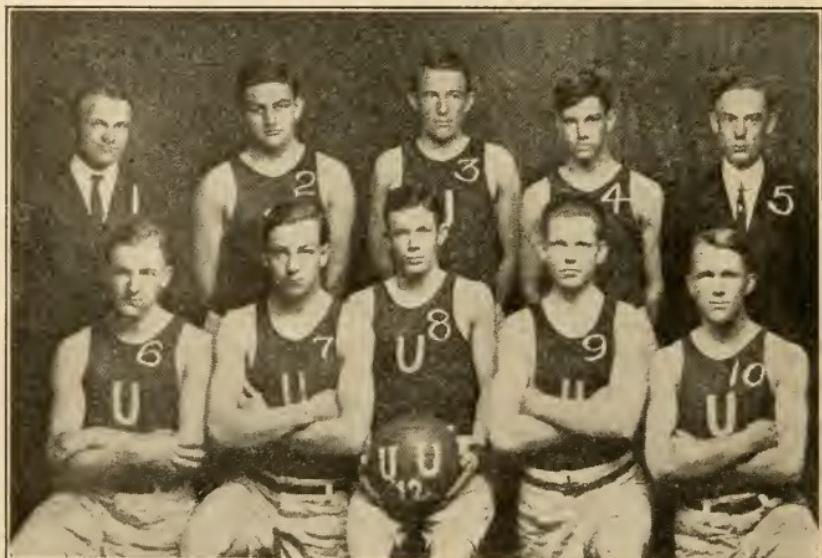

Captain Wenzell of Navy is named as the best forward in the South during the 1911-1912 season. In natural ability and worth to a team he surpassed all his competitors. He is a leader in the strictest sense and he succeeded, when opponents threatened to overhaul his team, in rallying his men and firing them with a true and gentlemanly fighting spirit. Time and again I have seen him negotiate a basket from the center of the court. Unlike many others, Wenzell, after attempting a long shot, follows up the play and is in position to seize the sphere should it miss the basket. Many guards, when covering him closely, have found it a difficult task to prevent him from shooting and scoring. He is, furthermore, aggressive and a splendid shot.

As Wenzell's running mate there are several men who might be chosen, but Captain Kearns, Virginia, is awarded the place. This man possesses more speed than Wenzell, but is surpassed by Wenzell in goal shooting ability. Kearns is aggressive, is in

Moore, Photo.

UNION UNIVERSITY, JACKSON, TENN.

plays in every corner of the court, passes well and was a big factor in the team work of the Virginia five.

For the center position Captain Schlosser, Georgetown, is chosen and Schlitz, as he was called by his team mates, has few, if any, superiors. He has represented Georgetown four years and has been a most valuable man. I am reliably informed that during the four years at Georgetown Schlosser was in every game. He is a master of the game, has a splendid eye for the basket, whether he be attempting goal from floor or foul line. In addition he is a strong defensive player, good dribbler, fast and a finished leader.

The performances of Ertz, Navy, earned for him the position of left guard. This man possesses all-around basket ball ability, being speedy, strong on the defense, a good dribbler, and an accurate goal tosser. Consistent were his performances and he registered a number of points for his team. The records fail to show where this fact interfered with his defensive work, and he generally succeeded in negotiating more baskets than the man against whom he was pitted.

Regarding the ability of Colliflower, Georgetown, and my brother, who is placed at right guard, I deem it best to quote verbatim what Mr. H. C. Byrd, basket ball coach and sporting editor, said of him:

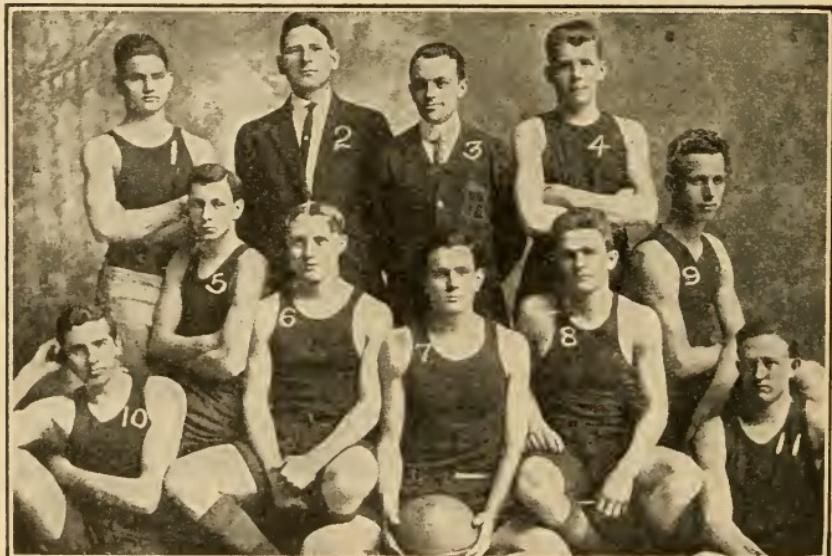

"Colliflower, since the first contest, has done brilliant work and been the chief factor in his team's success in almost every game. There are few better men in the country than he when it comes to recovering the ball and getting it out of the danger territory, and once he gets his hands on it there is small danger of his losing possession of the leather. Colliflower handles and passes the ball almost to perfection and is a wizard at diagnosing and breaking up plays before they are fairly started. He knows the game, is cool at all times and is a wonderful offensive as well as defensive player."

The men here chosen are not only finished players but have been in the game several years, possess a thorough knowledge of its finer points, are cool and deliberate under the most trying conditions.

1, Gaines; 2, Dr. Stroud, Coach; 3, Westmoreland; 4, Irwin; 5, Cook, Mgr.;
6, Bloom; 7, Roddenberry, Capt.; 8, Doyle.

MERCER UNIVERSITY, MACON, GA.

EMORY AND HENRY COLLEGE, EMORY, VA.

It is my opinion that this combination, in the hands of the proper coach, would compare favorably with any other collegiate quint that could be selected.

There was a wealth of good material among the forwards and I here mention those who were far above the ordinary: Waldron and Whelan of Georgetown, Smith of Navy, E. Rixey of Virginia, Rice and McDonnell of Catholic University, and Peters of Loyola.

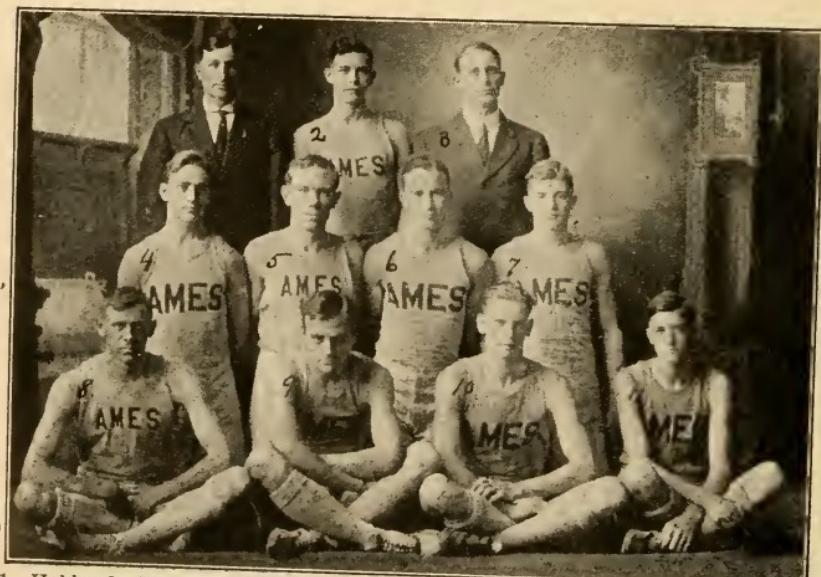

Honorable mention is deserved by the following men who held down the pivot position with credit: McReavy, Navy; Cook, Loyola; Rixey, Virginia, and Lapham, Baltimore Medical College.

Finished men in the guard positions were not so numerous and among the leaders were Wild, Navy; Heiskell, Georgetown; Neff and Churchman, Virginia, and Joyce of Loyola.

1, Baldwin; 2, Boehm; 3, Hite; 4, Hamilton, Coach; 5, Stuckey, Capt.; 6, Gribble, Trainer; 7, Snyder; 8, W. Brown; 9, Greenlees; 10, L. Brown; 11, Smith.

IOWA STATE COLLEGE, AMES, IOWA.

Review of the Missouri Valley Collegiate Basket Ball Season

BY DR. JAMES NAISMITH UNIVERSITY OF KANSAS.

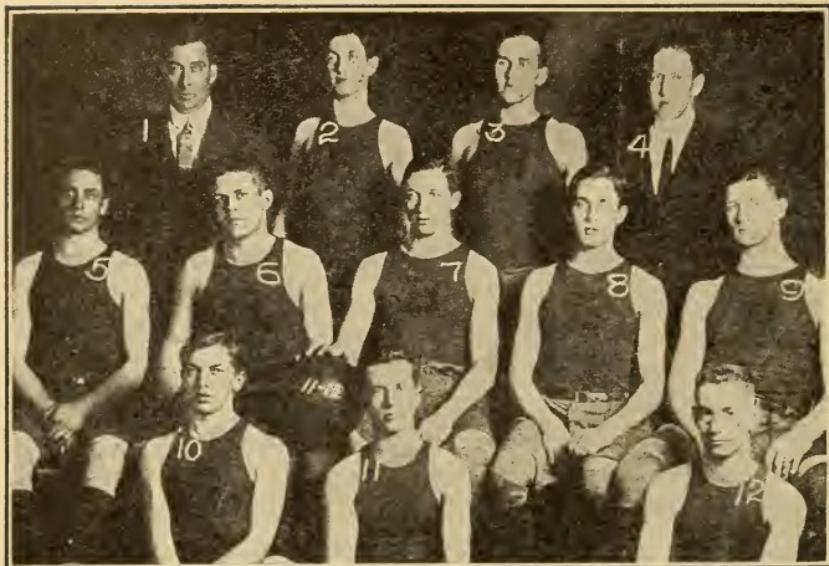

Basket ball as a college sport has lost none of its popularity in the Missouri Valley, but is played by nearly every college in the section, both as an intramural sport and as a regular intercollegiate contest. All of the members of the Missouri Valley Conference had teams in the field last season. Drake and Washington, having dropped out for a year, again came back with strong teams. The teams were more evenly matched than usual.

The Conference was divided into a Northern and a Southern section, each team playing four games with each of its competitors, and the winner of the Southern section was to meet the winner of the Northern section to compete for the championship.

Nebraska won the Northern contest and Kansas won the Southern, but the managers of these teams failed to arrange a series for the final test, so that the championship remains undecided. Nebraska and Kansas had played a series of games as dual contests, in which Nebraska was victorious. Had these counted, Nebraska would have been the victor, but it was distinctly understood before the games began that dual contests should not count in the finals and Kansas wanted the final games played, but the details of arrangement could not be perfected.

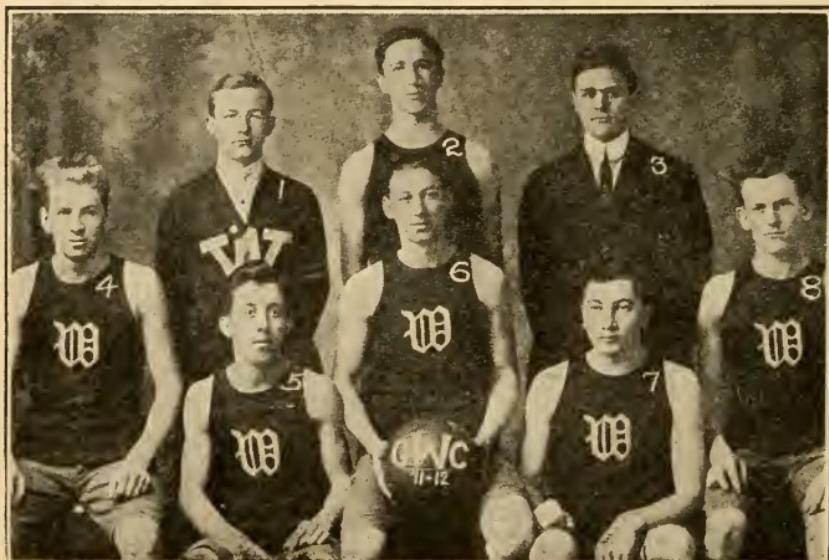

A great deal of trouble was encountered through the agreement of the members of the Conference to work with one official only in each game. The experience of the country is that two are needed and the rules specifically call for two.

Most of the colleges not in the Conference put up strong teams and played a high grade of basket ball. There are, for this year, Conferences in Kansas and Missouri and it is hoped

1. Haggerty, Coach; 2, Thomas; 3, Crisp; 4, Church; 5, Criss; 6, Sissler; 7, Jackson; 8, Barnett; 9, Zimmerman; 10, Taylor; 11, Wilson; 12, Grimm.

1, Lemke, Coach; 2, Speckmann; 3, Allinger, Mgr.; 4, Lash; 5, Filter; 6, Guhse, Capt.; 7, Krueger; 8, Bockstahler.

GERMAN WALLACE COLLEGE TEAM, BEREAL, OHIO.

that the winners of these Conferences can meet near the close of the season.

The greatest hope for the future of the game lies in the great number of high school teams that are playing the game. Nearly every high school has its team, and though many of them have no indoor court on which to play, yet they arrange a court outdoors and put up good teams under adverse circumstances. The quality of basket ball played by the high schools is high and their games would do credit to many a college team. With the high schools playing this kind of basket ball the quality of the collegiate game is sure to advance and the game will increase in enthusiasm.

Review of Collegiate Basket Ball in Ohio

By L. W. ST. JOHN.

The past year in basket ball has seen the game make still further strides forward, both in the class of play and in popularity among followers of the game.

Ohio teams are playing first-class basket ball, of the fast, open, passing kind, which puts a premium on skill and makes an enjoyable contest.

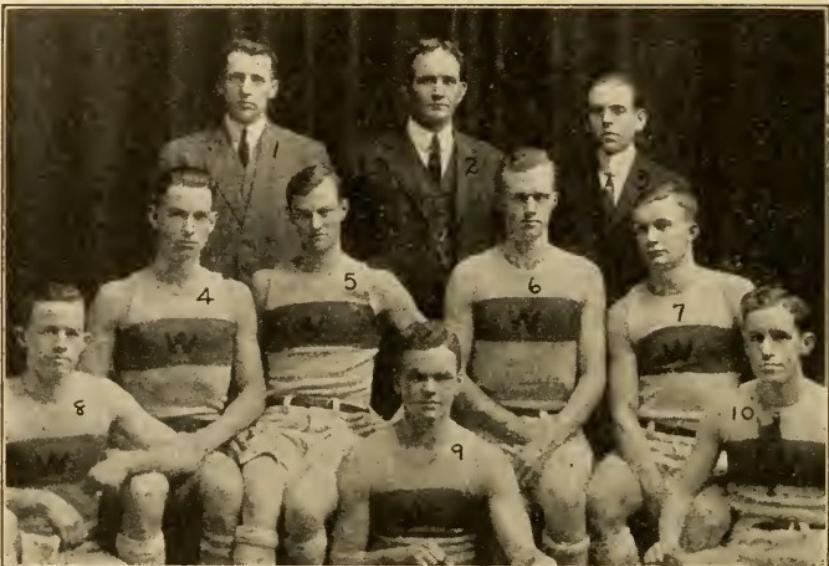

Officials have been excellent, contributing in no small degree to the excellent development of the fast, clean game, as free as possible from bodily contact and roughness. The dribble rule has been strictly enforced and naturally results in less dribbling than would be indulged in were the rule construed loosely.

There is no league or organization among the Ohio teams and the result is very frequently that the teams do not meet. A clean title to the championship rarely results. An effort is being made to organize an Intercollegiate League among the stronger Conference colleges. This would surely result in the teams playing a more even schedule and increase greatly the interest in the games. It is hoped that such an organization may be effected next year.

There are twelve colleges playing under the Ohio Conference Rules. The record of games played between Conference colleges follows:

	Won	Lost		Won	Lost
Ohio Wesleyan.....	9	2	Miami	3	3
Oberlin	7	1	Kenyon	3	7
Wooster	7	3	Wittenberg	2	7
Ohio State	5	2	Ohio University.....	1	4
Reserve	6	3	Cincinnati	1	6
Denison	4	3	Case	0	6

The two leading teams, Oberlin and Ohio Wesleyan, did not meet. Wesleyan played a much stronger schedule of Conference games than Oberlin, meeting Ohio State, Wooster and

Baker, Photo.

OHIO STATE UNIVERSITY, COLUMBUS, OHIO.

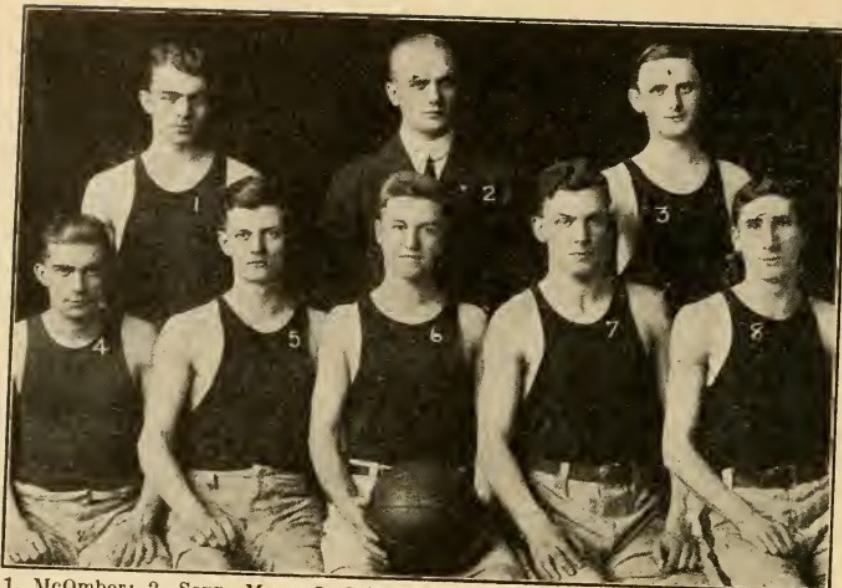

Denison, both at home and away. Wesleyan's first Conference game was at Columbus and State won, 23 to 20. Severance for Ohio Wesleyan scored only six out of twenty-one chances for foul goals. It was discovered later that the foul marks were about eighteen inches too far away. While nothing official was done about this game, the Ohio Wesleyan people feel that it should not count against them. Severance scored over sixty per cent. of his chances on foul goals for the season. The Wesleyan team played a steady, consistent game. One slump lost them the Wooster game at Delaware, but they more than retrieved this by a victory at Wooster two days later. Thomssen and Severance were not surpassed by any Ohio guards. Littick was a consistent scorer, hard to stop. Higgins at center and Wright at forward were first year men of whom more will be heard later.

Oberlin had a good team, though they met only one of the stronger Ohio teams, Ohio State, with whom they won and lost. The victories to their credit are two from Kenyon, two from Case, one from Wittenberg and one from Reserve at Oberlin. The team showed real class by defeating Rochester, 28 to 17, at Rochester. In Young, Pyle and Thellar, Oberlin had a very fast and skillful trio of men with few equals in Ohio.

Wooster had their usual strong team and made a good record. Blaser at forward was the heaviest scorer, getting sixty baskets in eight games. White at guard and Collins at forward were also good.

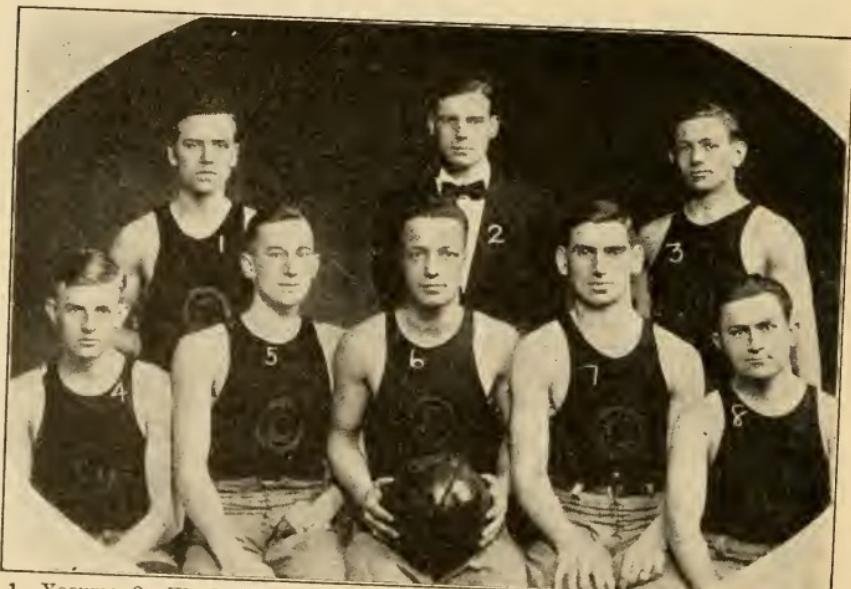

Ohio State did very well on the season, considering the fact that practically a new team had to be developed. They lost games by one point each to Rochester and Notre Dame, but showed some real class by handing a 42 to 20 defeat to Wabash on the Wabash floor. Thomas and Reilly are exceptionally good men of whom much is expected.

After having dropped basket ball from their list of sports for a time Western Reserve again entered the field and, under the circumstances, put out a good team that made a very creditable record for the season. Their defeats were by small margin, and away from home, at the hands of goods teams: By Oberlin,

R. Easton, Capt.; 7, Flohr; 8, Holtzberg.

UNIVERSITY OF CINCINNATI.

26-19; Wesleyan, 35-25; Wooster, 24-23. Kalish at forward was the star point-getter, scoring sixty-nine field goals.

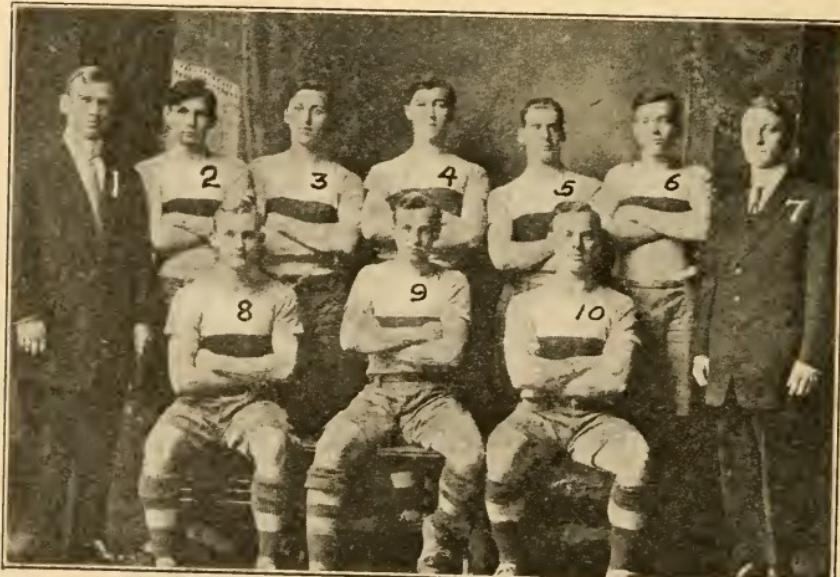

Denison's pre-season prospects were bright, but their work was something of a disappointment. Rupp and Chaille were the strong men and did much for their team.

At Miami, Levering and Kirtsing were good. Captain Beatty was the best for Kenyon, Allen and Stewart did well at Wittenberg; Miller at center and Gibson at guard were Ohio's strongest; Easton of Cincinnati shows much class although much inclined to overlook team work. Case school put out a team for the first time in the school history.

As usual there were some strong teams outside of the Conference. Hiram College had a good season, though winning eight and losing six is below their usual form. Buchtel College did well, although not as good as last year. St. Mary's College of Dayton won all their games, but played only at home. Kentucky State College had the best record in their district, winning all their games. Allegheny College of Meadville, Pa., had a fine season, winning eleven out of twelve games played, numbering among their victories one over the famous Buffalo Germans.

Review of the Wisconsin Collegiate Basket Ball Season

BY EMMETT D. ANGELL.

Collegiate Championship.

	Won.	Lost.	PC.
Milwaukee	3	1	.750
Ripon	3	2	.600
Lawrence	2	3	.400
Carroll	2	4	.333

Normal School Championship.

	Won.	Lost.	PC.
Milwaukee	5	1	.833
Oshkosh	3	1	.750
La Crosse.....	1	3	.250
Whitewater	0	3	.000
Stevens Point.....	0	4	.000

The collegiate basket ball season in Wisconsin proved to be one of the best series of contests for the championship ever fought out in the State. The general adoption of the collegiate rules by both the normal schools and the colleges raised the quality of play and gave satisfaction to players and spectators.

The game played by the normal school teams has shown marked improvement. This improvement is due to the installation of collegiate courses in the various normal schools, for which credit is given at the State University. Many men of athletic ability are now attracted to the normal schools and it may be expected that the additional material will raise the standard of the athletic competition among these schools.

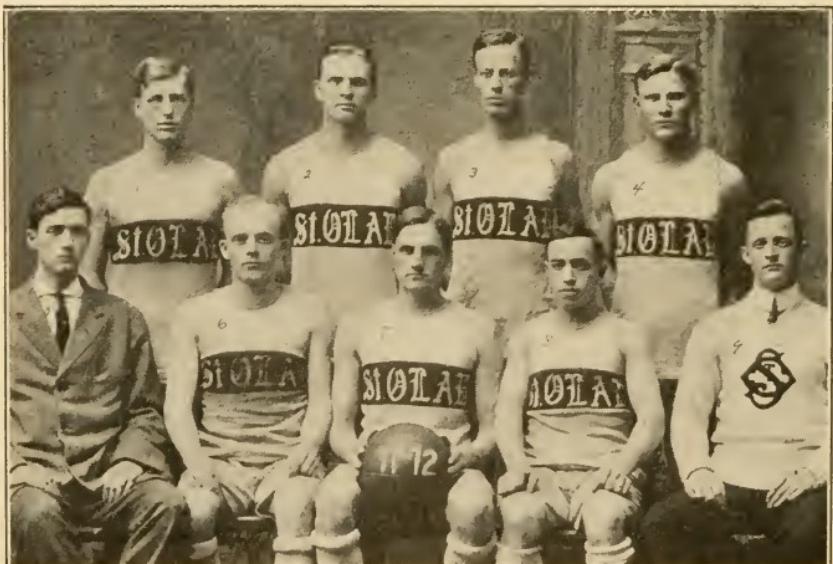

At the present time there is not a basket ball league that brings together the best teams of the State and the scheduling of games is a somewhat haphazard proposition. The formation of a league is contemplated for the ensuing season and with such an organization the game will be on a firmer basis.

The championship of the State was fought out in two divisions last season. The Normal School championship was won by the Milwaukee team and then all interest was centered in the struggle for supremacy among the college teams of the State. Ripon, Carroll and Lawrence were evenly matched, and as the Milwaukee Normal had all of these teams on her schedule, the championship would be settled by these games. Carroll had succeeded in defeating the Normal School team in the opening

game of the season at Waukesha, but in a subsequent game had been defeated at Milwaukee. In addition to breaking even with the Milwaukee team, Carroll had won and lost from Lawrence and had also lost one game at Ripon. On Friday night, March 8, Ripon was scheduled to play the return game at Waukesha with Carroll and on the same night the Milwaukee team played at La Crosse in the final game of the Normal School series. Ripon and Milwaukee were scheduled to meet in Milwaukee the following night and it was necessary for both teams to win their Friday game to be returned champions of their respective divisions.

In a bitterly contested game Ripon defeated Carroll by a score of 31 to 27, while at the same time Milwaukee was clinching the Normal School championship by winning from La Crosse with a score of 42 to 16.

From the standpoint of general interest there could have been no more fitting climax to the season than the game of the following evening that brought together the two leading teams of the State to definitely settle the State championship. One of the largest crowds that ever witnessed a game in Milwaukee gathered to see the championship fought out. The game was fast and clean, and the final score of 32 to 22, in favor of Milwaukee, fairly indicates the respective abilities of the two teams. Milwaukee's championship was fairly earned, for, in addition to the championship games played, they carried the heaviest schedule of any of the State teams, defeating such teams as Concordia College, the University of Wisconsin College of Engineers, the University of Wisconsin Cardinals, the Northminster, and the strong G. A. C. team. In all, sixteen games were played against the strongest teams in the State and fourteen were victories.

THE ALL-STATE TEAM.

Right forward.....	Beers, Milwaukee
Left forward.....	Polier, Oshkosh
Center.....	Sorenson, Ripon
Right guard.....	Risch, Carroll
Left guard.....	Seifert, Milwaukee

ST. JOHN'S UNIVERSITY, COLLEGEVILLE, MINN.

In selecting the best team in any section there are always one or two players that are easily placed on such a team, for their playing has been so much above the average that their selection meets with general approval. Beers, the captain of the championship Milwaukee team, and Polier of the Oshkosh Normal were easily the best forwards of the year. Beers was the heavy scorer for his team, making 144 points during the season, a record that will doubtless stand for some time. He played a hard, fast game, and none of the State guards seemed able to prevent his scoring. Polier was one of the shiftest players in the State and, in addition to his accuracy in goal throwing, played a strong passing and defensive game. These two men, Beers of Milwaukee and Polier of Oshkosh, are the selections for All State forwards.

The selection of center for an All Star team is more difficult, as no one man outclassed all of the others. The choice for this position would rest between Sorenson of Ripon, Stothart of Milwaukee and Krippine of Oshkosh. Sorenson is given the position because of his consistent work throughout the season and because of his especially brilliant playing in the last two championship games of the year against Carroll and Milwaukee.

The most consistent guard of the year was Seifert of Milwaukee. Seifert's playing lacked spectacular features, but by his steadiness he was one of the chief factors in his team's success. He proved to be the best guard of the year in his exceptional playing at the close of the season. In the last five games not a single one of his opposing forwards succeeded in making a basket and in the same games Seifert caged the ball thirteen times. Risch of Carroll is chosen as the running mate for Seifert in the other guard position. Risch is a strong, aggressive player, a fast passer, and scores often enough from the guard position, to worry his opposing forwards.

This team of five men, with Beers and Polier at the forward positions, Sorenson at center, and Seifert and Risch at guards, would give a good account of themselves against any team.

Directory of Officials

The Rules Committee again presents a Directory of Officials for the benefit of team captains throughout the country. It is the idea of the Committee that the task of bettering the work of officials can be more readily accomplished by publishing this list of men whom the Rules Committee feel are competent to referee or umpire a game of basket ball. In so doing the Rules Committee urges the co-operation of team captains and managers.

SEND IN REPORTS ON OFFICIALS.

Post cards containing questions which the Rules Committee would like to know are sent out to each team at the start of the season and the team captains and managers are requested to answer the questions *immediately after each game is played and, placing a one cent stamp on the card, mail it.*

If you are a team manager or captain and have not gotten a number of these cards write at once to Ralph Morgan, 119 West 25th Street, New York City, enclosing 4 cents postage, and the cards will be sent you.

Report cards should be filled in and filed by both teams after every game. If the reports are made conscientiously, a true indication of the worth of each official may be had and the Directory will prove to be a valuable help. All reports will be regarded as confidential. We cannot emphasize the point too strongly, however, that it is only with the unqualified co-operation of the team captains and managers that the Rules Committee can maintain this Directory of Officials.

The Directory is national in scope and has been compiled during the past four seasons of basket ball. Only such officials as have proven themselves thoroughly competent have been included. Naturally, all the available men have not yet been listed, but as soon as possible the Directory will be enlarged to include all officials qualified to serve in championship contests.

REPORT OF WORK OF OFFICIALS

To be filled out immediately after each game and mailed—one card for each official
(Referee or Umpire)

Name of officials (give initial) James S. White [Harvard] Referee _____
Address of official 2105 Market Street Chicago Ill. Umpire _____
Names of teams and score Wisconsin 17; Chicago 14.
Date of game 1/25/13 Where played Chicago Ill. No. of fouls called 28
Did he know the rules? Yes If not, what rules did he fail to enforce? _____
Did he follow the ball? Yes Did he keep the game fast? Yes
Did he control the game? Yes Did he permit roughness? No
State any other cause of dissatisfaction None
(Signed) John L. Smith Position Captain
Team Chicago Univ. B.B.T. Address Bartlett Gym. Chicago Ill

REPORT OF WORK OF OFFICIALS

To be filled out immediately after each game and mailed—one card for each official
(Referee or Umpire)

Name of officials (give initial) Robert R. Dillon (Cornell) Referee _____
Address of official 923 Mission Street Milwaukee Umpire _____
Both _____
Names of teams and score Wisconsin 17 Chicago 14
Date of game 1/25/13 Where played Chicago No. of fouls called 28
Did he know the rules? Not well If not, what rules did he fail to enforce? He allowed blocking
Did he follow the ball? _____ Did he keep the game fast? _____
Did he control the game? _____ Did he permit roughness? Somewhat
State any other cause of dissatisfaction He did not seem to regard Umpire's duties important
(Signed) B. F. Clarke Position Captain
Team University of Wisconsin Address Madison Wis.

Reports on the work of officials should be made out immediately after each game when the work of the Referee and Umpire is fresh in your mind. Care should be taken in spelling names and getting initials and addresses. Report cards will be sent you at the start of the season. If you have not received them send four cents postage to RALPH MORGAN, 119 West 25th Street, New York City.

Officials Should Co-operate.

If an official not on the present list will secure recommendations of fitness from at least two teams of standing his name will be inserted in the next edition of the Directory. This should be attended to at the earliest possible moment.

Officials should keep in touch with the Central Board of Officials. From time to time interpretation meetings will be held by the Rules Committee in different sections of the country, and from time to time explanatory literature will be mailed to the officials listed in the Directory.

Derogatory reports from several teams of the work of any official on the list will be considered as sufficient to cause the removal of the official's name.

The Directory of Officials follows. In writing for information regarding the list, address all communications to the member of the committee whose name appears under the district heading of the Directory. In writing for report cards address Ralph Morgan, 119 West 25th Street, New York City, enclosing 4 cents postage.

FIRST DIVISION.

For general information address Ralph Morgan, 119 West 25th Street, New York City, or address the member whose name is given at the head of the subdivided section.

NEW ENGLAND.

For information or to give information address Oswald Tower, Andover Academy, Andover, Mass.

Connecticut—

Meriden—Willard Hyatt (Yale), 67 East Main Street.

Middletown—E. Fauver (Oberlin), care of Wesleyan University.

New Haven—William L. Lush.

Massachusetts—

Andover—Oswald Tower (Williams), Phillips Andover Academy.

North Adams—John Aspinwall.

Ashburnham—Frank W. Hardy (Cushing Academy).

Boston—George H. Hoyt, 344 Washington Street.

Fitchburg—John Waters, care Y. M. C. A.

Springfield—Carl A. Reed, Box 19, Mittineague, Mass.

Worcester—P. W. Hehir, 89 Gage Street.

G. N. Messer, Worcester Academy.

SOUTH ATLANTIC.

For information or to give information address Ralph Morgan, 119 West 25th Street, New York City.

New York City—

Harry A. Fisher (Columbia), Columbia University, New York City.

Mr. Deering, Manhattan College.

Fred J. Murphy, care United Shoe Co., 39 Warren Street.

Mr. Shields.

Ed. Thorpe, care A. Taylor & Co., 16 East 42nd St.

T. J. Thorpe (Columbia), New York *Evening Journal* office.

F. J. Quigg, Station M, New York Post office.

Flushing, N. Y.—Dr. George J. Lawrence (Pennsylvania), 427 Amity Street.

Pennsylvania—

Allentown—R. W. Mitchell.

Gettysburg—Mr. Philipi.

Mifflinburg—Mr. Hagy.

Myerstown—Mr. Glassmire.

Philadelphia—P. P. Carney, 1400 Vine Street.

Arthur Kiefaber, Tioga Street.

Robert E. Lamberton (Pennsylvania), Commonwealth Trust Building.

Frank Sommer (Pennsylvania), southeast corner 17th Street and Susquehanna Avenue

C. A. Weymouth (Bucknell-Yale), Real Estate Trust Building.

South Bethlehem—P. J. White, Lehigh.

State College—B. M. Herman, State College.

Williamsport—Otto W. Turner, 314 Pine Street.

York—Wilson Barnes.

J. F. Barnes, Pullman Automatic Ventilator Co.

New Jersey—

Princeton—Dr. E. Fauver (Oberlin), Princeton University.

District of Columbia—

Washington, D. C.—James E. Colliflower (Georgetown),
220 First Street.

Mr. Hughes.

F. J. Rice (Georgetown), 313 John Marshall Place.

Maryland—

Annapolis—Harry Sturdy, St. John's College.

Virginia—

Alexandria—W. C. Foster (Pennsylvania).

Charlottesville—H. L. Spratt.

New York State (exclusive of New York City)—

Ithaca—Dr. F. W. Owens (Chicago), Cornell University.

Dr. A. H. Sharpe (Yale), Cornell University.

Rochester—John Jack, Y. M. C. A.

Schenectady—O. W. Knolt.

George Tilden, State Armory.

Syracuse—Mr. Crawshaw, Y. M. C. A.

V. V. Roseboro, Y. M. C. A.

Paul Sternburg (Syracuse), Elks' Temple.

Dr. B. O. Murphy, Lowell Ave. and Tomkins St.

Troy—P. B. Sampson, Rensselaer Polytechnic Institute.

Watervliet—P. J. Lamb, 1266 Third Ave.

Yonkers—A. W. Koch, 255 South Broadway.

SECOND DIVISION.

For information or to give information address Mr. L. W. St. John, Ohio Wesleyan University, Delaware, Ohio.

Ohio—

Akron—Frank Hagerty (Colby), Buchtel College.

Mr. Jahant (Buchtel), Buchtel College.

Alliance—Ralph H. Gibson (Mt. Union), Mt. Union College.

Cincinnati—George Golde, care Dept. Physical Education,
Univ. of Cincinnati.

Frank Marty (Kenyon), care Dept. Phys. Ed. Univ. of Cin.

Cleveland—Ed. F Connor (Bates), Lincoln High School.

Ned Paul, 7021 Lawnview Avenue.

G. W. Parratt (Case), 2104 East 46th Street.

Day Peckinpah, 1409 Rockefeller Building.

Harvey Snyder (Harvard), 307 Williamson Building.

Harry Towne, care Glenville High School.

Columbus—John S. Edwards (Chicago), care North High School.

Wright McCallip, 637 Oak Street.

Stockton Raymond (Ohio State), 20 East Gay Street.

Mr. Wambold, Director Recreation Dept.

Dayton—Wm. Pflaum, care St. Mary's Institute.

Findlay—Carl Dunn, Findlay College.

Lorain—George Daniel (Ohio Wesleyan), care Lorain High School.

Newark—Lee Moore (Denison), Y.M.C.A.

Springfield—Mr. Borden, Y.M.C.A.

Toledo—W. Coughlin, Y.M.C.A.

Michigan—

Detroit—Warren J. Frye, Detroit University School.

Pennsylvania (Western Section)—

Pittsburgh—Fremont E. Davis, care Central Basket Ball League.

Dr. Geo. Flint (Penn.), care Carnegie Technical School.

J. W. Page, care University of Pittsburgh Medical College.

Foster Ralston, care Pittsburgh Athletic Association.

West Virginia—

Buckhannon—Prof. S. C. Riker.

H. A. Stansbury.

Fairmont—Mr. Pitzer.

THIRD DIVISION.

For information or to give information address Dr. L. J. Cooke, University of Minnesota, Minneapolis, Minnesota.

Illinois—

Chicago—J. B. Burke, 5110 Wabash Avenue.

T. E. Byrne, 2338 Paulina Street.

E. C. Delaporte, 57th Street and Cottage Grove Avenue.

D. L. Hoffer (Bartlett Gym), University of Chicago.

Arthur C. Hoffman (Chicago), 601 No. Carpenter Street.

O. R. Jeffers, 824-26 So. LaSalle Street.

Edward Lange, 2506 Burling Street.

R. A. Leonhardt, 824-26 So. LaSalle Street.

Robert G. Piper (N.W. University), 407 The Rookery.

Dr. Henry T. Kallenberg (Iowa), 824 Association Building.

H. Orville Page (Bartlett Gym.), University of Chicago.

H. G. Reynolds, 57th Street and Cottage Grove Avenue.
John J. Schommer (Chicago), 4338 Perry Street.
Harry Schmitt, 824-26 Association Building.
Robert W. Stevens, 824-26 Association Building.
E. S. Wheeler, Lewis Institute.
Decatur—Gilford Wiley, 255 West Prairie Street.
Dr. Eugene C. Woodruff, 237 So. Haworth Avenue.
Evanston—R. E. Riley, 820 Hamline Street.
Mattoon—H. M. Cooper.
Oak Park—Stuart Templeton (Williams).

Indiana—

Indianapolis—W. H. Diddel (Wabash), 731 Pythian Street.
Shelbyville—H. W. Reimann (Purdue).

Portland—Charles Mackie.
Salem—Walter Winslow.

Washington—

Walla Walla—Physical Director Applegate, Y. M. C. A.

Comments on the College Basket Ball Rules

The development of the college game throughout the country under the rules as they have been modified during the past four or five years has been so almost uniformly satisfactory that the Rules Committee at its last meeting saw no reason for making any important changes in the code. The few changes which were voted are in black faced type, for ease of identification, where they occur in the rules.

The Committee feels that the greatest need at present is for increased emphasis on the effort to induce all interested in basket ball—players, coaches and officials—to co-operate in playing and administering the game in accordance with the spirit and letter of the rules as they appear in the following pages.

The game has spread very rapidly throughout the country among educational institutions, and naturally, in consequence of its rapid growth, certain practices and tendencies have arisen which have had to be met from year to year by changes in the rules. That these changes in the rules, governing the dribble, administration of personal fouls, etc., were wisely made and had their desired effect when conscientiously adopted is shown by the fact that in large sections of the country where basket ball enjoys its greatest popularity as a college sport it is almost entirely free from those features that have elsewhere given rise to just criticism.

The basis for most of these criticisms is found in one or the other of the following tendencies:

- (a) The habit of body checking, blocking and personal contact of various sorts, that is, the tendency to play the man and not the ball.
- (b) The tendency to keep possession of the ball and to advance it toward the goal, either by actually

carrying it or by an illegal dribble, that is, a tendency toward individual work instead of team play.

The statement that personal contact has no legal place in basket ball cannot be emphasized too strongly. The corollary to this statement is that it is the essence of the game to keep the ball out of your opponent's reach and to advance it towards his goal by accurate passing and cleverly devised team play. Considered from this point of view, it is evident that the dribble should be used only when the other members of the team are covered and the player has an opening through which to advance the ball, or when he has an opening for a shot for goal and he wishes to improve his opportunity for the shot.

These statements are based on the fundamental character of the game. They furnish the key to the interpretations of the rules and should govern the entire spirit and administration of the game. They are based on three considerations:

(a) The history of the game.

It was devised to supply an indoor sport which had the speed and drive of foot ball without tackling, interference, and violent bodily contact.

(b) The character of the space ordinarily available for the game.

In most cases the field is restricted and is surrounded by obstacles of various sorts such as pillars, apparatus, furniture, etc.

(c) The specific provisions against roughness and personal contact that have been an important feature of the rules from the beginning.

The changes which have been made in the rules during the past few years have been formulated for the purpose of preserving these fundamental characteristics and checking those developments in the methods of playing the game that tend to make it resemble indoor foot ball.

The opinion is held in some places that the restriction of the unlimited dribble, the strict administration of the personal foul rule, and the imposition of penalties for body checking, close guarding, etc., tend to make the game slow and uninteresting. Experience in many places, however, has demonstrated that the opposite is the fact and that the game with unlimited dribbles, close guarding and holding, is a slow game with little scoring from the field and many interruptions for calling fouls, and tries for goal from the foul line. Such games are won in very many cases by free throws. On the other hand, when the game is opened up and personal contact is reduced to its lowest terms, it becomes cleaner, faster, and more enjoyable for both players and spectators. There is not only an opportunity but a demand for clever individual play, team combinations, and the continuity of effort that will test the endurance of the best trained athlete.

The fundamental rules governing the game are:

(a) For the players:

- (1) Play the ball and not the man. (Rule 11 and Rule 22, Sections 4, 5, 8, 20 and 21.)
- (2) Pass the ball to another player rather than try to run over or charge through an opponent. (Rule 10; Rule 12, Section 2; and Rule 22, Sections 4 and 5.)
- (3) Refrain from illegal dribbles. (Rule 9; and Rule 22, Section 10.)
- (4) No blocking on out-of-bounds plays. (Rule 11, Note 2; and Rule 21, Section 2, Note.)
- (5) Make every effort to avoid personal contact with opponents.

(b) For the officials:

- (1) Make the players play the ball instead of the man in every case. (If the rules governing the dribble and advancing the ball are enforced, there is no excuse for playing the man.)

- (2) Keep the game clean by enforcing the rules regarding holding, charging, blocking and pushing; these are all personal fouls as covered under Rule 22, Sections 4, 5, 8, 20 and 21. Discourage fouling by penalizing every offence, and make the game fast by rendering decisions promptly.
- (3) Indicate clearly to the scorers the player upon whom the foul is called and differentiate the types of fouls as indicated in Rule 26, Section 8.

The Rules Committee again emphasizes the fact that the success of the rules and the healthy development of the game depends largely upon the way in which it is conducted by the officials; and the further fact that it will support officials in the effective administration of the rules as interpreted in the following pages.

*Any suggestions or questions regarding the
Rules will be gladly received, and should be
addressed to*

*Dr. JOSEPH E. RAYCROFT,
Chairman of Collegiate Rules Committee,
Princeton University,
Princeton, N. J.*

Collegiate Basket Ball Rules

RULE I.

GROUNDS.

SECTION 1. The playing surface shall be a *Court*, rectangular *Court* free from obstructions, the maximum dimensions of which shall be 90 feet in length by 55 feet in width, and the minimum dimensions of which shall be 70 feet in length by 35 feet in width.

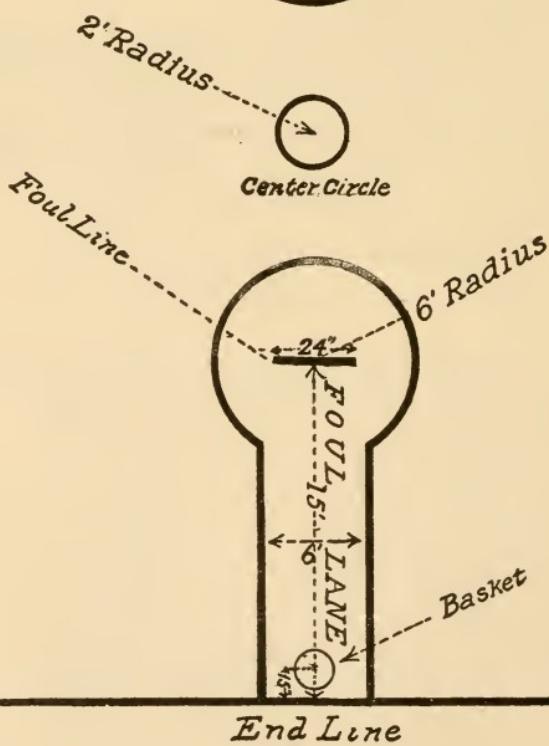

SEC. 2. The court shall be bounded by *Boundary lines*. well defined lines, which shall be not less than 2 inches in width and which shall be at every point at least 3 feet from any obstruction. The lines on the short sides of the court shall be termed the *End Lines*, those on the long sides, the *Side Lines*. (See diagram on page 166.)

*Distance from
obstructions.*

SEC. 3. A circle with a radius of 2 feet *Center circle*. shall be drawn in the center of the court. This shall be termed the *Center Circle*. (See diagram on page 166.)

SEC. 4. Lines 24 inches in length, the *Foul lines*. middle points of which are on the straight line connecting the middle points of the end lines, shall be drawn in the court parallel to, and at a distance of 15 feet from the end lines. These lines shall be termed the *Foul Lines*. (See diagram on page 166.)

Side Line

SEC. 5. *Lines shall be drawn in the court, Foul lanes.*
 perpendicular to the end lines and at a distance of 3 feet on either side of the middle of the end lines; these lines shall terminate when intersected by arcs of circles drawn with a 6 foot radius, whose centers are the centers of the foul lines. The space adjoining the end lines within the perpendiculars and the circles shall be termed the *Foul Lanes*. (See diagram on page 166.)

SEC. 6. By mutual agreement of the captains, Section 1 and the distance of the boundaries from obstructions named in Section 2, may be changed. Alterations in rules.

RULE 2.

SECTION 1. The *Ball** shall be round; it shall be made of a rubber bladder covered with a leather case; it shall be not less than 30 nor more than 32 inches in circumference. It shall weigh not less than 20 nor more than 23 ounces. Ball:
Material, size,
weight.

RULE 3.

SECTION 1. The *Baskets*† shall be nets of cord, suspended from metal rings 18 inches in diameter (inside). The nets shall be constructed or tied so as to check the ball momentarily when it passes through. The rings Baskets:
Material, size,
position.

*The Spalding Official Basket Ball, No. M, is the official ball and must be used in all match games.

†The Spalding Official Basket, No. 80, is the official basket and must be used in all match games.

Background: shall be rigidly attached to backgrounds, whose **Dimensions.** dimensions shall be 6 feet horizontally, and 4 feet vertically. These backgrounds shall be rigid and shall be of wood painted white, or of plate glass. The position of the backgrounds shall be perpendicular to the side lines; and their centers shall lie in the perpendiculars erected at the middle points of the end lines. The rings shall so lie in a horizontal plane, 10 feet from the floor, that the nearest point of the inside edge shall be 6 inches from the background; they shall be attached to the background at a point 1 foot from the bottom and 3 feet from either side, by a perpendicular arm, which, if extended, would pass through the center of the rings.

Projections. SEC. 2. There must be no projections beyond the sides nor above the upper edge of the baskets.

RULE 4.

Teams. SECTION 1. Each *Team* shall consist of 5 players.

Substitute. SEC. 2. A substitute may take the place of a player only when a whistle has been blown declaring the ball dead. He must report to, and be recognized by, the referee before going on the floor. A player who has left the game may not re-enter it.

SEC. 3. All players shall be numbered with plain numbers at least six inches high

and one inch wide, made of felt, and fastened securely on the backs of their shirts.

RULE 5.

SECTION 1. The Officials shall be a Referee, an Umpire, who shall also be time-keeper, and two Scorers.

NOTE.—The duties of officials are stated in Rules 26, 27.

DEFINITION OF TERMS

RULE 6.

Out of Bounds—

SECTION 1. *A Player is Out of Bounds* when any part of his body touches the boundary line or the floor outside of the boundary line.

Player out of bounds.

SEC. 2. *The Ball is Out of Bounds* when any part of it touches the boundary line, or the floor outside of the boundary line, or when it is touched by a player who is out of bounds.

Ball out of bounds.

SEC. 3. *The Ball is Carried Out of Bounds* when a player causes it to go out of bounds and regains possession of it out of bounds.

Carrying ball out of bounds.

NOTE.—A player who is forced out of bounds by one of the opposing side, shall not be considered as having carried the ball out of bounds.

SEC. 4. *The Ball is Passed Out of Bounds* when a player in the court causes it to go

Passing ball out of bounds.

out of bounds to one of his own side who is out of bounds when the impetus is given.

EXCEPTION.—Sections 3 and 4 shall not apply when a try is made for a goal.

Player causing ball to go out of bounds.

SEC. 5. *The Ball is Caused to Go Out of Bounds* by the last player touched by it before it crosses the line.

NOTE.—When a player while in bounds or out of bounds causes the ball to go out of bounds, and it touches a player inside the court during its progress, it may be recovered by any player excepting the man who is last touched by the ball inside the court.

NOTE.—When the ball passes from out of bounds to out of bounds without touching a player in transit, it goes to the player first touching it.

RULE 7.

Scrimmage and held ball.

SECTION 1. Two players of opposing sides having possession of the ball constitute a **scrimmage** and the ball is a **held ball**.

Running with the ball.

RULE 8.

SECTION 1. If a player shall, while having the ball in his possession, advance in any direction, he shall be considered as *Running with the Ball*.

NOTE.—A player who is standing when he receives the ball, may STEP one foot in any direction in starting a dribble, but the remaining foot must be kept in position until the ball

has left his hands. A player who is standing still when he receives the ball, may, in making a pass, or in throwing for goal, STEP or stride one foot in any direction and then may jump from one or both feet, but the ball must leave his hands before one or both feet again touch the floor. Due allowance is to be made for a player catching the ball while running, provided he stops as soon as possible. A player with the ball in his possession who changes his position without appreciably advancing the ball in any direction, shall not be considered as running with the ball; neither shall a player pushed by one of the opposing side be considered as running with the ball.

RULE 9.

SECTION I. A *Dribble* is a play in which a *Dribbling*. player after giving impetus to the ball by throwing, batting, bouncing or rolling, touches it again before it has been touched by another player. The term *dribble* is understood to refer to the motion of the ball while it is being batted, bounced, tossed, or rolled.

NOTE.—Successive tries for goals shall not be considered dribbling.

RULE 10.

SECTION I. Any actual holding of an opponent, or impeding his progress shall be considered *Holding*.

NOTE.—Any interference with a player jumping for a thrown-up ball shall be construed as holding.

RULE 11.

Blocking. SECTION 1. The interference in **any way** with the progress of a player who has not the ball shall be termed *Blocking*.

NOTE.—It is illegal for a player, by the use of hands or arms, to interfere with the motion of another player in any direction.

NOTE.—A player who is ineligible to recover the ball out of bounds shall not interfere in any way with any player trying to recover the ball.

RULE 12.

Unnecessary roughness. SECTION 1. Any act of violence, whether mentioned specifically in the rules or not, shall be termed *unnecessary roughness*.

SEC. 2. When a player runs into or charges another player, it shall be termed *Unnecessary Roughness*.

RULE 13.

Goal. SECTION 1. A *Goal* is made when the ball enters, and **remains in or passes through**, the basket.

NOTE.—A goal thrown shall count for the team into whose basket the ball was thrown, even though it was done by mistake.

RULE 14.

SECTION 1. A *Free trial for Goal* is the privilege given a player to throw for goal from a position upon or directly behind the foul line, the other players being restrained from attempting to disconcert the free thrower in any way.

*Free trial
for goal.*

RULE 15.

SECTION 1. A *Foul* is a violation of a rule *Foul*, for which a free trial for goal is allowed.

RULE 16.

The Ball is Dead, when—

Dead ball.

SECTION 1. An official's whistle blows, calling, "time out."

SEC. 2. An official's whistle blows, calling a foul.

SEC. 3. The referee's whistle blows, calling held ball.

SEC. 4. The Umpire's whistle sounds at the expiration of each period.

EXPLANATION.—This rule provides that the ball shall be dead immediately upon the sound of the whistle, even if the ball is in the air at the time.

SEC. 5. After a goal is made.

SEC. 6. After each free trial for a goal when a foul has been called on both teams simultaneously.

SEC. 7. After the first of the two free trials awarded under Rule 22, Section 20.

SEC. 8. After a free throw, in which the thrower has crossed the foul line or has taken more than ten seconds in making the throw.

SEC. 9. After going out of bounds it touches one of the spectators before it is touched by a player.

SEC. 10. It is touched by a player out of bounds.

SEC. 11. It goes out of bounds and returns to the court without being touched by a player.

SEC. 12. It enters a gallery or lodges in any support of the baskets.

EXCEPTION.—If the ball is in the air at the time a whistle is blown, calling a foul, or calling time out, the ball shall not be dead until the goal has been made or the ball has touched a player or the floor. However, if a foul is called on the side throwing for the goal, the ball shall be dead at the time the foul is committed and the goal, if made, shall not count.

NOTE.—Should the ball strike an official, it is not regarded as dead, but play continues exactly as if the ball had not touched him.

THE GAME

RULE 17.

Length of game.

Time of halves.

Intermission.

Time changed by mutual agreement.

SECTION I. The *Game* shall consist of two halves of 20 minutes each, with a rest of ten minutes between the halves. This is the time of actual play. These times may be changed by mutual agreement of the captains.

SEC. 2. In case the score is tied at the end of the second half, an extra period of five minutes, or as many periods of five minutes as may be necessary to determine the winning team, shall be played without change of goals and without intermission.

SEC. 3. Teams shall be notified three minutes before the termination of the intermission. If either team is not on the floor ready for play within one minute after the referee calls play, either at the beginning of the second half, or after time has been taken out for an accident, the ball shall be put in play, in the same manner as if both teams were on the floor ready to play.

Teams notified
of termination
of intermission
penalty.

RULE 18.

SECTION 1. The visiting team shall have the choice of baskets in the first half. At the beginning of the second half the teams shall take opposite goals from those assumed at the beginning of the first half.

Choice of baskets.

RULE 19.

SECTION 1. Time shall be taken out whenever ordered by the referee. He shall take out time at the request of each captain, not more than three times for each team during the game.

Time taken out.

NOTE.—If a captain calls time out more than three times during a game, he is delaying the game.

Umpire may call time.

SEC. 2. In case of an injury to a player, which the referee does not see, the **umpire** may call time.

Over-time play.

SEC. 3. Over-time play shall be considered as a continuation of the second half.

Resumption of play, after time out.

SEC. 4. Play shall be resumed in two minutes when time has been taken out by the request of either captain.

SEC. 5. Time shall be taken out whenever a foul is called on both teams simultaneously.

Player may not leave floor of play.

SEC. 6. A player may not leave the floor without permission of the **referee or the umpire** until time is called at the end of the half.

RULE 20.

Putting ball in play from center circle.

SECTION 1. At the *opening of the game*, at the *beginning of the second half*, and when the ball is put in play when dead as in Rule 16, Sections 5, 8, 11, and after the last free trial for goal has been made in Section 6, the center players shall stand facing their own goal, with both feet in the center circle, and the referee shall toss the ball up in a plane at right angles to the side lines and to a greater height than either of the center players can jump, and so that it will drop between them.

Both feet in center circle.

Height ball is thrown by referee.

NOTE.—By "own goal" shall be construed the basket into which a side is throwing.

Centers must touch the ball first.

SEC. 2. When the referee puts the ball in play in the center, he shall blow his whistle, after which *it must be touched by either or*

both of the center players. The referee shall put the ball in play again in the same manner when this rule is violated.

NOTE.—This rule does not prohibit the centers allowed to catch ball.

RULE 21.

SECTION 1. The *ball* may be *thrown* or *batted* in any direction with one or both hands.

Ball thrown
or batted.

SEC. 2. When the ball is dead as in Rule 16, Section 10, the *player first touching it* shall put it in play by passing, bouncing or rolling it into the court in any direction, from any spot (outside of bounds) on a line drawn at right angles to the boundary line at the spot where the ball crossed it.

Ball belongs
to player
first touching it.

How ball is put in
play from out of
bounds.

NOTE.—When the space out of bounds is limited for any reason the team-mates of the player who caused the ball to go out of bounds shall NOT be eligible to regain the ball, but the referee shall give the ball to the player of the opposing side who was nearest the ball when it crossed the line. The referee shall place the opponent of the player who has the ball, in the court at least three feet from the boundary line. No player on either side shall be nearer than this to the player out of bounds. The referee and two captains shall agree upon the enforcement of this ground rule before the game.

How ball is put in play when Referee is unable to decide to whom it belongs.

SEC. 3. If the referee is *unable* to determine to which side the *ball belongs*, or if it is dead as in Rule 16, Section 11, he shall put it in play at the point in the court where it crossed the boundary line, by throwing it up between the two players of opposite sides nearest to it, in the same manner as in Rule 20, Section 1.

How ball is put in play, if out of bounds, when time is called.

SEC. 4. If the *ball is out of bounds*, when dead as in Rule 16, Section 1, it shall be put in play in the same manner as in Rule 21, Section 2.

How ball is put in play, if in bounds, when time is called.

SEC. 5. If the *ball is in bounds*, when dead as in Rule 16, Section 1, it shall be put in play by the referee tossing it up between the two players of opposite sides nearest to it, at the spot where it was when time was called, in the same manner as in Rule 20, Section 1.

Ball in play after a free trial for goal is missed.

SEC. 6. When the ball is dead as in Rule 16, Section 2, if the free trial for goal is missed, the ball shall be in play. Except when the foul was called under Rule 22, Section 20, when the ball is dead after the first trial whether the goal was made or missed.

SEC. 7. When the ball is dead as in Rule 16, Section 3, it shall be put in play at the spot where it was declared dead, by throwing it up between the two players in the same manner as in Rule 20, Section 1.

SEC. 8. When the ball is dead, as in Rule 16, Section 9, it shall be given to the nearest

eligible player at the point where it crossed the line.

SEC. 9. When a free throw has been awarded the trial must be made under the control of the referee. He shall, immediately after the foul has been called, place the ball on the free throw line. The throw for goal must be made within ten seconds after the ball has been put on the line.

RULE 22.

A Player Shall Not—

SECTION 1. Run with the ball.

SEC. 2. Kick the ball.

SEC. 3. Strike the ball with the fists.

SEC. 4. Hold, block, trip, run into, charge or push an opponent.

SEC. 5. Use unnecessary roughness.

SEC. 6. Intentionally delay the game.

SEC. 7. Pass the ball to another player while making a free trial for goal, but must make an honest attempt to cage it.

SEC. 8. Charge in and make bodily contact with an opponent who is in a scrimmage. Two men of opposing sides having hands on the ball constitute a scrimmage.

SEC. 9. Interfere with the ball or basket while the ball is on the edge of the basket.

SEC. 10. After starting the dribble touch the ball with both hands, unless he passes it to another player or shoots for the goal. A drib-

ble to be legal must be continuous. If the ball loses its continuity of motion from being batted, bounced, tossed, or rolled and comes to rest in one hand or is *touched by both hands*, the dribble is stopped. It is understood that passing the ball from one hand to the other is not a legal dribble unless the ball is clearly tossed.

SEC. 11. Go on the floor as a substitute until he has reported to and been recognized by the referee.

SEC. 12. Throw for basket when the ball is dead.

SEC. 13. While making a free trial for goal, cross the foul line until the ball has entered or missed the basket, **or consume more than ten seconds in making the free throw.**

SEC. 14. Carry or pass the ball out of bounds as in Rule 6, Section 3.

SEC. 15. Carry the ball into the court from out of bounds.

SEC. 16. Touch the ball after putting it in play from out of bounds, until it has been touched by another player.

SEC. 17. Hold the ball more than five seconds out of bounds before putting it in play.

SEC. 18. Enter the foul lane while a free trial for goal is being made, or interfere with the ball until it has entered or missed the basket, **or attempt in any way to disconcert the player who has the free trial.**

SEC. 19. Interfere with a player who is returning the ball into the court from out of bounds; that is, no part of his person shall be outside of the court, and the ball shall not be touched until it has crossed the line.

NOTE.—See note to Rule 21, Section 2.

SEC. 20. Charge into a player who is between him and the goal or is closer to the goal and is in the act of throwing for the goal.

SEC. 21. Use unnecessary roughness on a player who is in the act of throwing for the basket.

NOTE.—If the goal is made it shall count and a free try shall be allowed in addition.

RULE 23.

SECTION 1. There shall be no coaching from the side lines during the progress of the game by anyone officially connected with either team.

Coaching from
side lines.

PENALTIES

RULE 24.

SECTION 1. A *free trial for goal* shall be allowed the *opposing team* for violation of Rule 22, Section 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 19, 21. For violation of Rule 23 the side offending shall be warned once by the referee. If the offense is repeated the offended side shall be given a free throw.

When free trial for
goal is allowed.

SEC. 2. Two free trials for goal shall be allowed the opposing team for violation of

Rule 22, Section 20. If the second free throw is missed the ball shall be in play.

SEC. 3. For violation of Rule 22, Section 11, by a player of the side throwing for goal, the **goal if made shall not count**. If violated by a player of the opposing side the **goal if made shall count**.

**Penalty for
entering foul lane
while free trial for
goal is being made.**

**Ball given to
opposing side
out of bounds.**

**Goal made
shall not count.**

SEC. 4. For violation of Rule 22, Sections 12, 13, if a *goal is made it shall not count*.

SEC. 5. For violation of Rule 22, Sections 14, 15, 16, 17, the *ball shall go to the opposing side out of bounds*.

SEC. 6. For violation of Rule 22, Section 18, by a player of the side throwing for goal, the *goal if made shall not count*, and if missed, the ball shall be in play. If violated by a player of the opposing side, the *goal if made shall count*, and if not made, another free trial shall be allowed.

Disqualification.

SEC. 7. For violation of Rule 22, Sections 4 and 5, the Referee shall have power to disqualify.

Disqualification.

SEC. 8. For violation of Rule 22, Section 21, the Referee *shall disqualify*.

SEC. 9. A player making four personal fouls in a game *shall be disqualified* by the referee for the remainder of the game.

NOTE.—This section shall not be set aside under any consideration, but shall be strictly enforced. “*Disqualifying Fouls*” shall be

personal fouls as covered by Rule 22, Sections 4, 5, 8, 20 and 21.

SEC. 10. Any team refusing to play after **Forfeited game.** receiving instructions to do so from the referee shall forfeit the game.

NOTE.—The score of a forfeit game shall be 2—0.

RULE 25.

SCORING.

SECTION 1. A *goal* made *from the field* shall count 2 points, a *goal* made *from a free trial* shall count 1 point.

Two points for field goal.
One point for a goal from free trial.

SEC. 2. A game shall be decided by the **Final score.** winning of the most points in the playing time.

RULE 26.

DUTIES OF OFFICIALS.

SECTION 1. The **referee** shall put the ball **in play**, decide when the ball is in play, when the ball is dead, to whom it belongs, when a goal has been made, and shall impose penalties for any violations of the rules.

Referee imposes penalties.

SEC. 2. The **umpire** can call fouls committed by any player, but it is understood that he is to pay particular attention to the men in the back-field away from the ball. He shall call a foul for violation of Rule 23. He shall also keep time.

Umpire calls fouls and keeps time.

SEC. 3. The **umpire** shall note when the game starts and shall deduct time consumed by

Umpire note when game starts.
Take out time.

Sound whistle at end of half and game.

Time deducted for stoppages.

When Officials blow whistle.

Referee decides questions arising between Scorers.

Referee's whistle takes precedence.

Time and place decisions may be made.

Official shall designate man on whom foul is called.

stoppages during the game on order of the referee, and shall sound a whistle at the expiration of the actual playing time in each half.

NOTE.—The time deducted for stoppages during the game shall be reckoned from the time the referee blows his whistle calling time until he again blows it on resumption of play.

SEC. 4. The officials shall blow a whistle whenever necessary to make a decision and the referee shall sound his whenever he puts the ball in play.

NOTE.—It is desirable for the referee and the umpire to have different sounding whistles.

SEC. 5. The referee shall also decide any question which may arise between the two scorers. His decisions shall be final.

SEC. 6. When the referee's whistle calling a foul sounds simultaneously with the umpire's call of time, the referee's whistle shall take precedence.

SEC. 7. The referee shall have power to make decisions for violation of rules committed either within or without the boundary lines; also at any moment from the beginning of play to the call of time at the end of a half or the game. This includes the periods when the game may be momentarily stopped for any reason. Fouls may be called on any number of players at the same time.

SEC. 8. The officials shall designate the player on whom a foul is called, and shall

indicate a personal foul by raising a hand clearly above the head.

SEC. 9. The referee shall disqualify a player who has made four personal fouls.

Referee disqualifies player.

RULE 27.

SECTION I. The scorers shall record the goals made and the fouls committed, shall distinguish in their records between personal and technical fouls, and shall notify the referee immediately when the fourth personal foul has been called on any player. Their records shall constitute the official score of the game. They shall compare their scores after each goal and any discrepancy shall be *at once* referred to the referee. For failure to notify the referee *at once*, the referee shall decide in favor of the smaller score.

Scorers compare records.

NOTE.—*It is suggested that games be scored according to the details in the Spalding Official Collegiate Score Book.*

Changes and Interpretations

Special attention is called to the following notes, which specify the changes in the rules and which explain more in detail than is desirable in the rules themselves, the purposes which the Committee had in mind in formulating the changes; and the interpretation of the rules governing some of the most important phases of the game.

Rule 3, Sec. 1. (**New.**) "The nets shall be constructed or tied so as to check the ball momentarily when it passes through."

Rule 4, Sec. 2. (**Interpretation.**) A player may not enter the game while the ball is in play, but must wait until the official's whistle has been blown for scrimmage, foul, out-of-bounds, etc. In entering a game he must report immediately to an official. Failure to comply with either of these regulations is basis for awarding free throw to opponent.

When a player enters a game and the player he is replacing leaves the floor immediately, a time-out shall not be charged against the team changing players, but any time taken out by the officials shall be regarded as an official's time-out. However, if a player deliberately delays the game at any time, it is either a time-out or a foul, depending upon whether or not the team delaying the game has used up its full number of time-outs.

Rule 4, Sec. 3. (**New.**) "All players shall be marked with plain numbers at least six inches high and one inch wide, made of felt, and fastened securely on the backs of their shirts." This provision was made to enable the scorers to determine without delay and without danger of mistake the identity of the player on whom a foul has been declared. See also Rule 26, Sec. 8.

Rule 6, Sec. 3. (**Interpretation.**) When a ball is carried out of bounds any member of the opposing team may have

the ball; that is, the referee is not bound to give the ball to the **opponent** of the man who carried it out. This provision applies only in the case where the ball is **carried out of bounds** and has no application in the situation covered by Rule 21, Sec. 2.

Rule 6, Sec. 4. (**Interpretation.**) If, after a legitimate attempt for goal the ball goes out of bounds and the player who made the try recovers the ball before it touches a spectator or another player, it is his ball. The try for goal, however, must be legitimate.

Rule 6, Sec. 5. Note 2. (**New.**) "When the ball passes from **out of bounds** to **out of bounds** without touching a player in transit it goes to the player first touching it out of bounds."

Rule 7. (**Modified.**) "Two men of opposing sides having possession of the ball constitute a **scrimmage** and the ball is a **held ball**."

Rule 8. (**Explanation.**) The rule regarding advancing the ball has not specifically defined exactly what is legal and what is illegal under different conditions. As a result, the phrases in common use in this connection, (a) "Shall not run with the ball," (b) "Shall not advance in any direction with the ball in his hand," and (c) "Shall play the ball from the spot on which he catches it," have been variously interpreted. The following analysis may be helpful in giving a basis for a ruling on the question of advancing the ball.

There are two situations:

(a) The player is standing still when he receives the ball.

(b) The player is in motion when he receives the ball.

In the first case there are three possibilities:

(1) He may pass the ball to another player—in which case he may **step or stride** one foot in any direction, and he may then raise one or both feet from the floor as he throws, but the ball must leave his hands before either foot touches the floor again.

(2) He may start a dribble—in which case he may **step**

one foot in any direction, but the rear or pivot foot must not leave the floor until the ball has left his hands; that is, the dribble must start with the ball and not with a run.

(3) He may throw for goal—in which case he may **step or stride** one foot in any direction, and he may then raise one or both feet from the floor as he throws, but the ball must leave his hand before either foot touches the floor again.

In the second instance, if the player is in motion when he receives the ball, he may do one of two things:

(1) Play the ball in any one of the three ways mentioned above under "a," when he must dispose of the ball before the foot that was on the floor when he received the ball has touched the floor again; or

(2) He may "stop as soon as possible" and then play the ball as if he had been standing still when he received it. The key to the decision under this rule is to determine whether or not the player has actually **carried the ball**. If he is running when he received the ball and then disposes of it at once by passing to another player or beginning a dribble or shooting for goal; or, if he stops as soon as possible after receiving the ball, before he does any one of these things, the play is legal.

Rule 11, Sec. 1. (**Modified.**) "The interference in any way with the progress of a player who has not the ball shall be termed **blocking**." The purpose of this rule is to discourage the practice of interfering with the progress of a player, by holding his suit or catching his hand or arm. This frequently leads to rough personal contact among the players who have not the ball, and it is the duty of the umpire to check the practice by inflicting the penalty provided by the rule.

Rule 13, Sec. 1. (**Modified.**) "A goal is made when the ball enters, and remains in or passes through, the basket."

Rule 14, Sec. 1. (**Modified.**) "A free trial for goal is the privilege given a player to throw for goal from a position upon or directly behind the foul line, the other players being

restrained from attempting to disconcert the free thrower in any way."

Rule 16, Sec. 7. (**Modified.**) "After a free throw, in which the thrower has crossed the foul line or has taken more than ten seconds in making the throw."

Rule 16, Sec. 8. (**Modified.**) "After going out of bounds it touches one of the spectators before it is touched by a player."

Rule 19, Sec. 1. (**Interpretation.**) If a captain calls time out more than three times during the game, he is delaying the game, and the fourth and subsequent time-outs shall be subject to a penalty. The penalty shall be imposed if a captain has used up his three time-outs even if his fourth and subsequent time-outs are due to the injury of a player. If an official calls time-out due to the injury of a player, it does not count against either team, but it is an official's time-out. However, if a penalty is imposed for an extra time-out, the team penalized may take the full time-out period.

Rule 19, Sec. 2. (**Omitted.**) The reports received by the Rules Committee indicated that the rule served no good purpose and that it resulted frequently in interrupting the play at critical times.

Rule 19, Sec. 6. (**Modified.**) "A player may not leave the floor without permission of the referee or the umpire until time is called at the end of the half." The penalty for the violation of this rule is the award of a free throw to the other side.

Rule 21, Sec. 2. Note. (**Interpretation.**) When the clear space out of bounds is less than three feet, the managers are requested to have a fine line drawn in the court three feet inside the boundary lines to serve as a restraining line to the man who is guarding the opponent about to put the ball in play after it has gone out of bounds.

Rule 21, Sec. 8. (**New.**) "When the ball is dead, as in Rule 16, Sec. 9, it shall be given to the nearest eligible player at the point where it crossed the line."

Rule 21, Sec. 9. (**New.**) "When a free throw has been awarded, the trial must be made under the control of the referee. He shall, immediately after the foul has been called, place the ball on the free throw line. The throw for goal must be made within ten seconds after the ball has been placed on the line." The purpose of this provision is to reduce as much as possible the amount of time taken for free throws. (Cf. Rule 22, Sec. 13.)

Rule 22, Sec. 10. (**Interpretation.**) Under the old rule the player was allowed to catch the ball during the dribble, to feint and dodge the guard and then to re-begin the dribble in a new direction. This practice gave the man with the ball such an advantage that it was difficult for any but the most skillful players to check the play without tackling or body checking and a great deal of rough play resulted. The rule now in force permits the player to dribble in any direction and in any way and as long as he pleases, until the ball comes to rest in one hand or is touched by both, when the dribble has stopped and the ball must be passed. Under this rule the motion of the ball due to the bouncing or tossing must be continuous. At rest in the hand means that its motion with reference to the hand has stopped. This meaning holds, even though the ball and hand may be in rapid motion, as when the player pivots, and does away with the uncertainty as to when the dribble has actually ceased. This rule makes it possible for a man guarding, to play the ball and not the man, since he has an equal chance at the ball and since he knows that the dribbler cannot catch the ball, and then, by a quick feint, avoid him and again begin the dribble. As a result this play has been attended by much less roughness and the game has been correspondingly faster.

Rule 22, Sec. 13. (**Modified.**) "While making a free trial for goal, cross the foul line until the ball has entered or missed the basket, or consume more than ten seconds in making the free throw."

Rule 22, Sec. 18. (Modified.) . . . "or attempt in any way to disconcert the player who has the free trial."

Rule 22, Sec. 20. Particular attention is called to this section which prohibits any player from charging into another player who is **between him and the goal**, or who is **closer to the goal** and is in the act of throwing for goal. Until this addition was made there was no adequate provision for protecting the player who by speed or strategy had got to a position between his guard and the goal, and, therefore, had won an opportunity for an unrestricted shot. Under these conditions, many guards were in the habit of charging into the man who was throwing for goal and spoiling his shot by any means short of that amount of roughness which would cause his own disqualification. Thus he saved a probable two points and his opponent could score at most only one point on his free throw, if the foul were called. The penalty for the violation of this new rule is, first, a personal foul upon the man who charged in; and, second, the award of two free throws to the offended side. Of course, the ball is dead after the first free throw, whether it is made or missed, but after the second free throw the ball is dead if the free throw is made, or in play if the free throw is missed, according to the regular rule.

Rule 24, Sec. 9. Note. (New.) The rule which provided for the disqualifying of a player who has been charged with four personal fouls in a game is not to be set aside under any consideration, but shall be enforced in all games.

Rule 26, Sec. 3. (Interpretation.) The umpire shall call time at the end of half or at the end of a game by blowing his whistle, or by a gong. He need not notify the referee, nor is it absolutely necessary that he use a pistol to call the end of time.

Rule 26, Sec. 8. (New.) "The officials shall designate the player on whom a foul is called and shall indicate a **personal foul** by raising a hand clearly above the head." (Cf. Rule 4, Sec. 3.)

No. 1.

An example of holding in an attempt to guard. Note that the arm in this picture is curved.

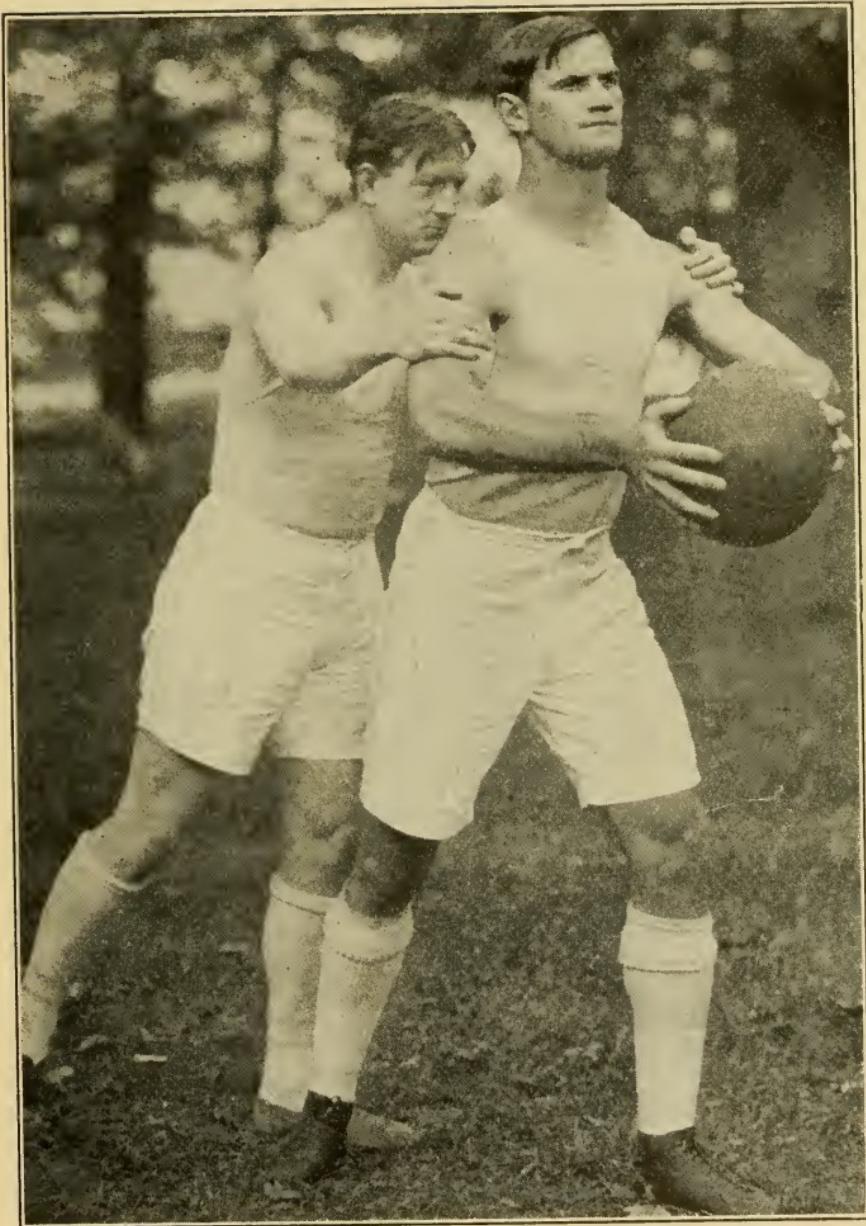

No. 2.

One of the worst forms of holding. Preventing an opponent from breaking away.

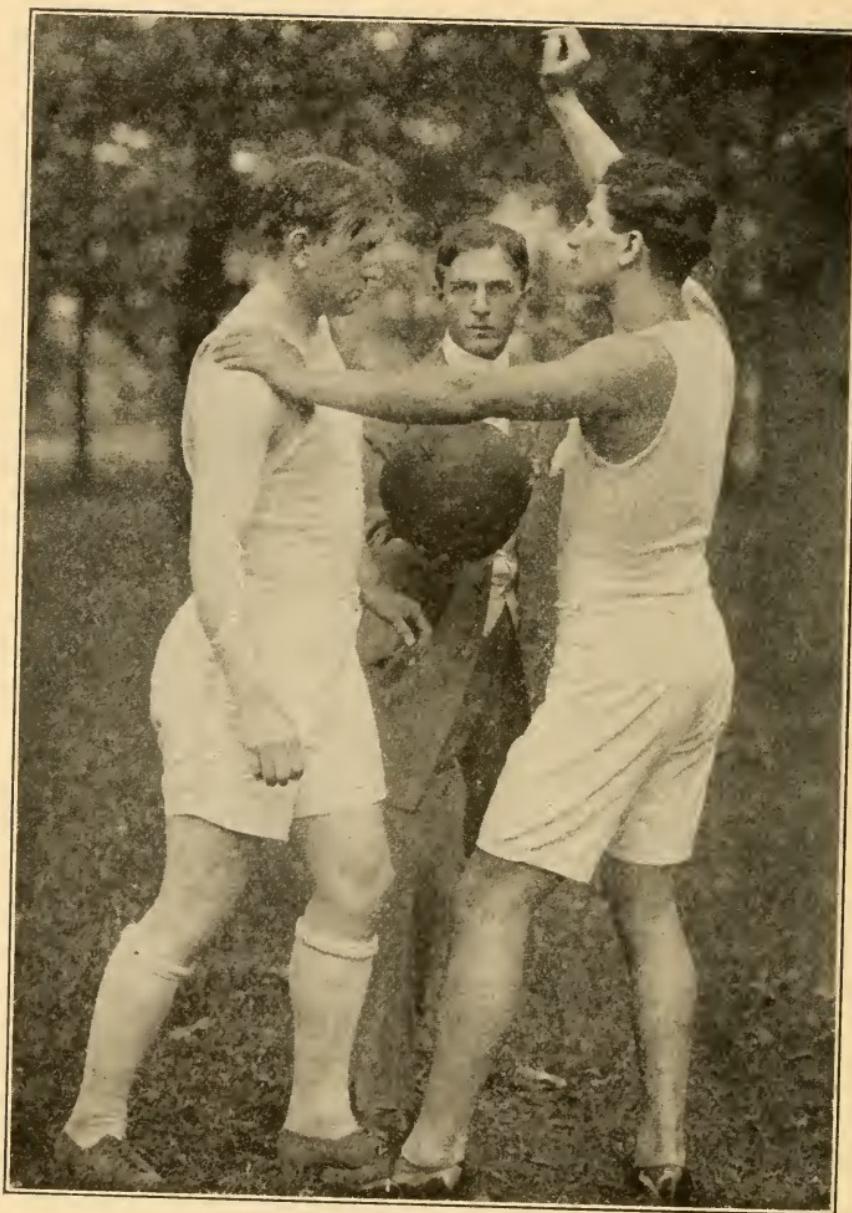

No 3

Another bad form of holding. This and the method illustrated in the previous picture must be carefully watched by the official as it is very hard to detect.

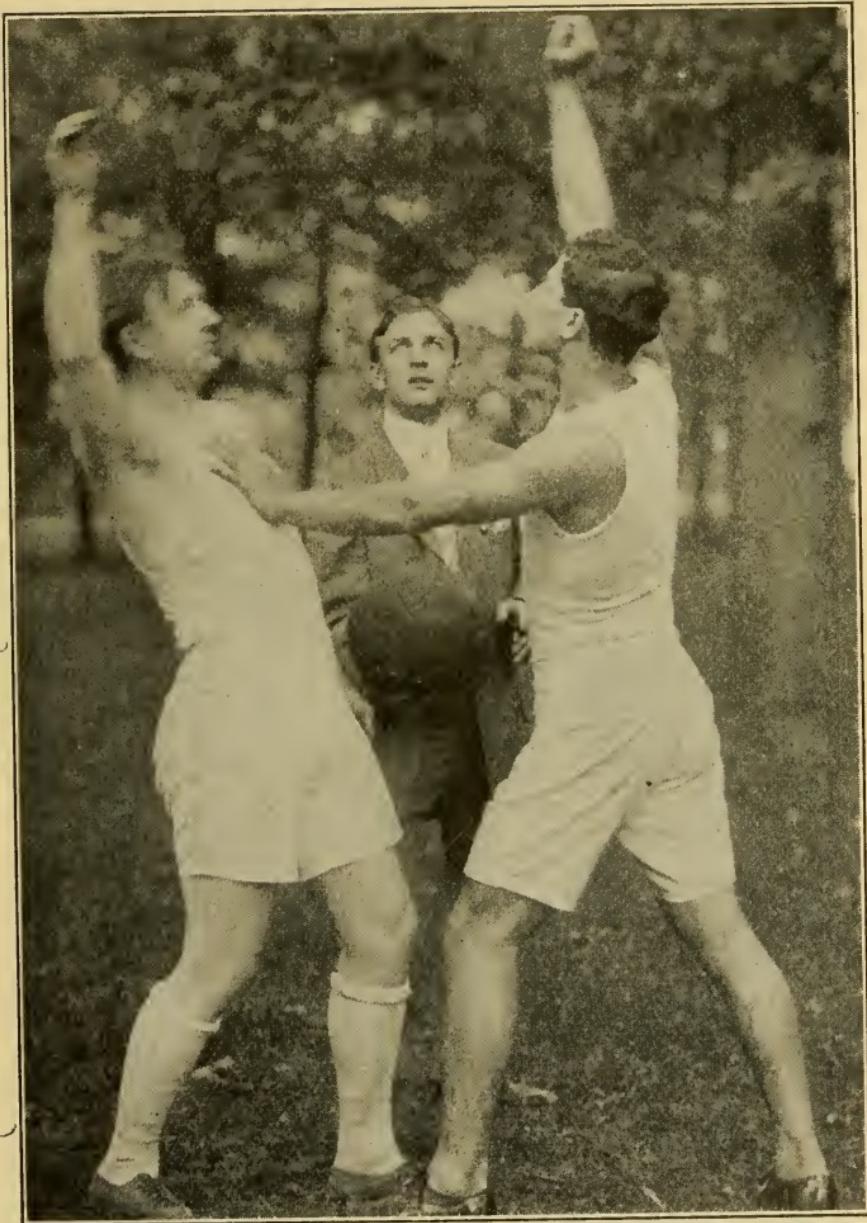

No. 4.

Another example of holding. It is usually done so quickly that it is not seen unless carefully watched. It is a very important foul, for it will always deflect a throw.

No. 5.

A form of holding used by a center to prevent his opponent from jumping for the ball.

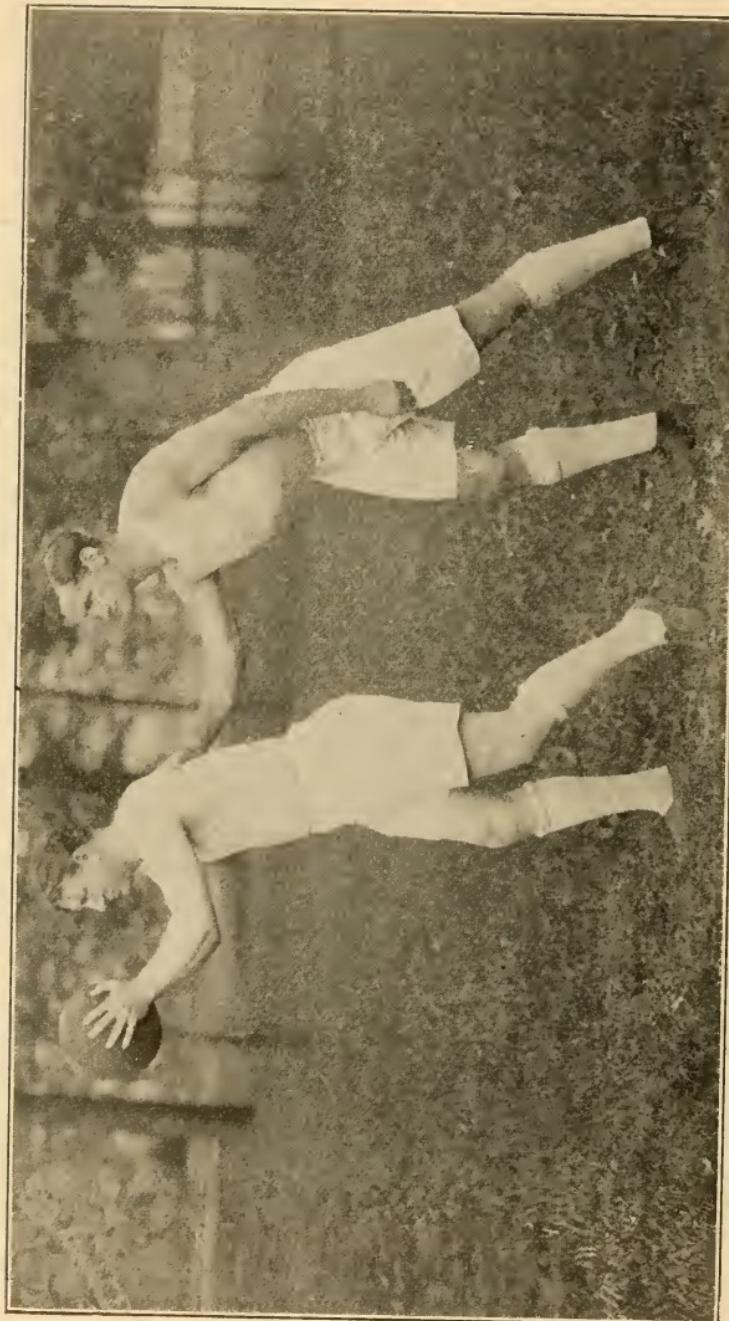

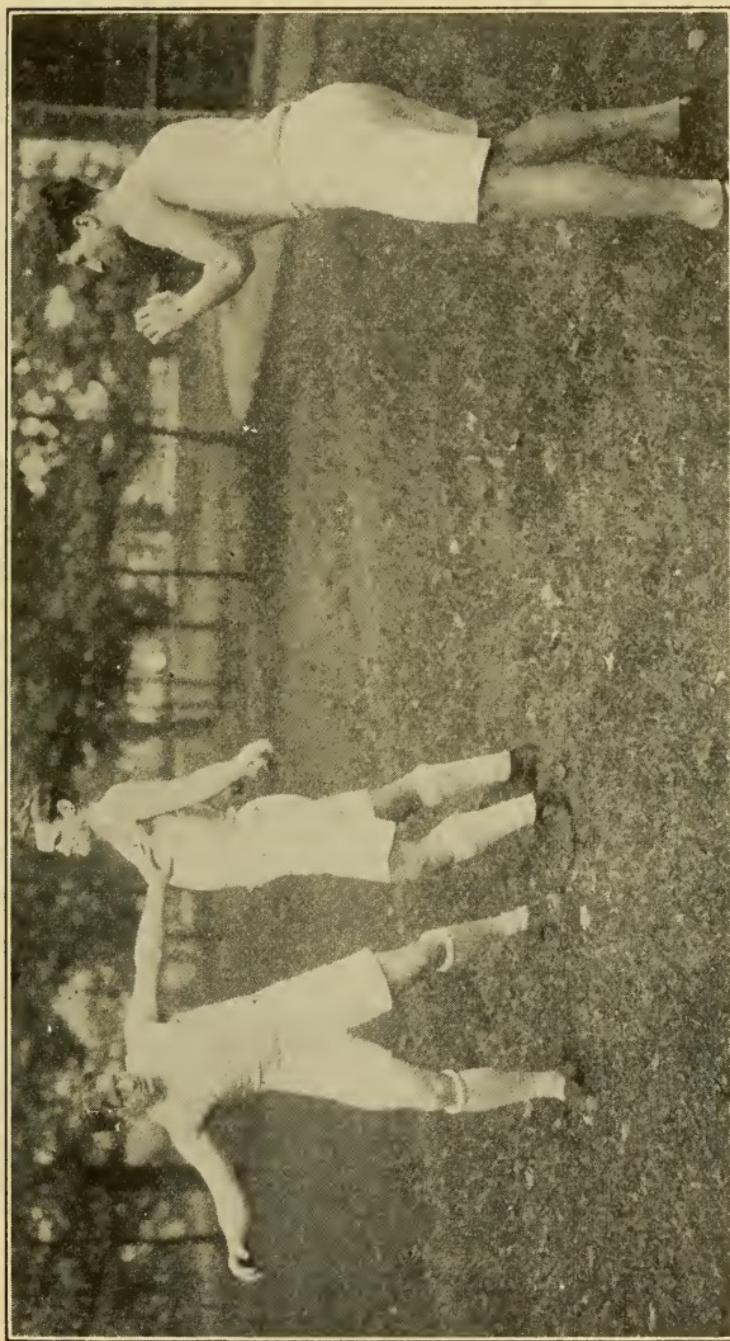

No. 6.

A form of pushing by a center to prevent his opponent from jumping for the ball.

No. 7.

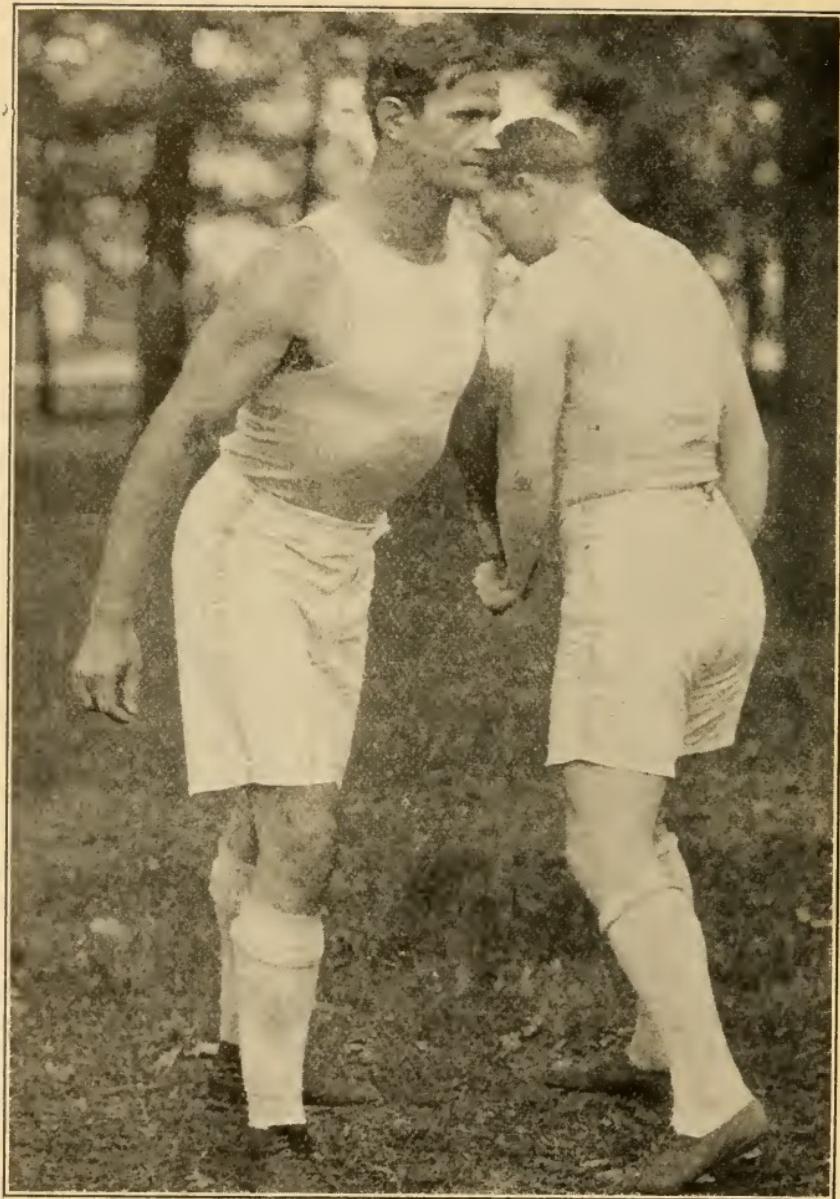

Pushing an opponent about to throw for goal. Particular attention must be paid to this offense, the penalty for which is disqualification.

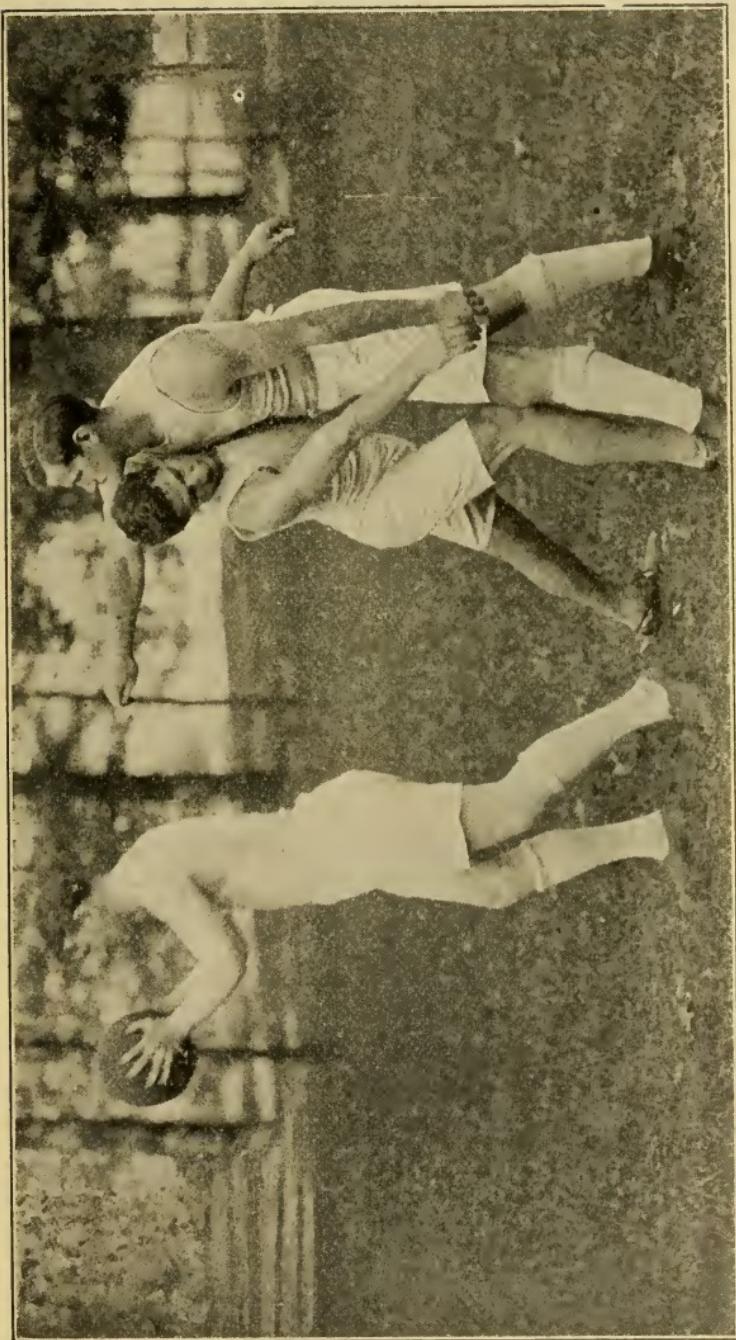

No. 8.

This illustrates a common practice of pushing an opponent upon a break to receive a pass. This must be carefully watched as it prevents the man pushed from guarding his opponent.

No. 9.

Another illegal form of breaking away from an opponent to receive a pass.
The man on the left is pulling his opponent by him
and will receive a clear pass.

No. 10.

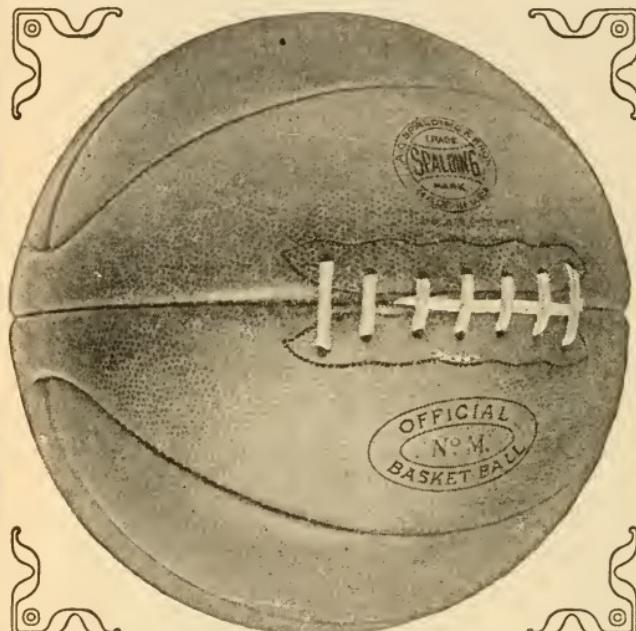

This illustrates blocking. It is not always done in such an apparent manner and must be closely watched.

The Spalding Official Basket Ball

THE ONLY
OFFICIAL
BASKET BALL

WE GUARANTEE
this ball to be perfect in material and workmanship and correct in shape and size when inspected at our factory. If any defect is discovered during the first game in which it is used, or during the first day's practice use, and, if returned at once, we will replace same under this guarantee. We do not guarantee against ordinary wear nor against defect in shape or size that is not discovered immediately after the first day's use.

Owing to the superb quality of our No. M Basket Ball, our customers have grown to expect a season's use of one ball, and at times make unreasonable claims under our guarantee, which we will not allow.

A. G. SPALDING & BROS.

OFFICIALLY ADOPTED AND STANDARD. The cover is made in four sections, with capless ends, and of the finest and most carefully selected pebble grain English leather. We take the entire output of this superior grade of leather from the English tanners, and in the Official Basket Ball use the choicest parts of each hide. Extra heavy bladder made especially for this ball of extra quality pure Para rubber (not compounded). Each ball packed complete, in sealed box, with rawhide lace and lacing needle, and guaranteed perfect in every detail. To provide that all official contests may be held under absolutely fair and uniform conditions, it is stipulated that this ball must be used in all match games of either men's or women's teams.

No. M. Spalding "Official" Basket Ball. Each, \$6.00

Extract from Men's Official Rule Book

Spalding "Official" Basket Ball Goals

Extract from Official
Rule Book

RULE III.—GOALS

Sec. 3. The goal made by A. G. Spalding & Bros. shall be the official goal.

Sec. 4. The official goal must be used in all match games.

No. 80

No. 90. This is the only drop forged goal made, to the best of our knowledge. We have gone to a great deal of trouble and expense to make it, so we can guarantee that even under the heaviest and most

severe use it will not break. Same size basket, and brace same length as on official goals. Extra heavy nets. This is the style goal that should be used in all large gymnasiums. Pair, \$5.00

No. 90

Spalding Practice Goals

No. 70. Japanned Iron Rings and Brackets. Complete with nets. Per pair, \$3.00

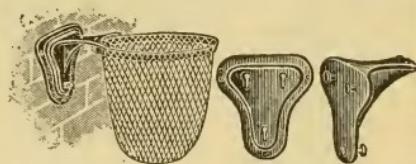

Spalding Outdoor Goals

No. 160. The upright post is made of 4x6 inch selected chestnut. The backstop itself is made of tongue and groove chestnut, all of the woodwork being given two coats of durable outdoor paint. Furnished complete with pair of No. 80 Official Basket Ball Goals. Per pair, \$40.00

No. 80. Officially adopted and must be used in all match games.

Pair, \$4.00

Spalding Detachable Basket Ball Goals

Pat. May 25, 1909

Fittings on No. 50 Goals

No. 50. Detached readily from the wall or upright, leaving no obstruction to interfere with other games or with general gymnasium work: Same size basket, and brace same length as on official goals. Pair, \$6.00

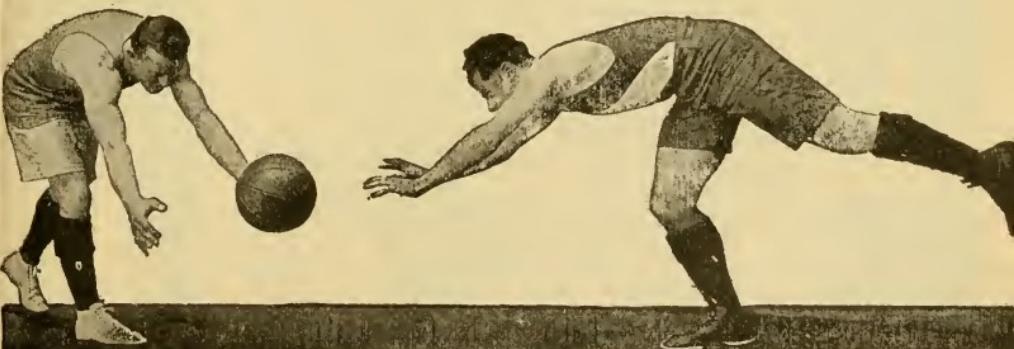

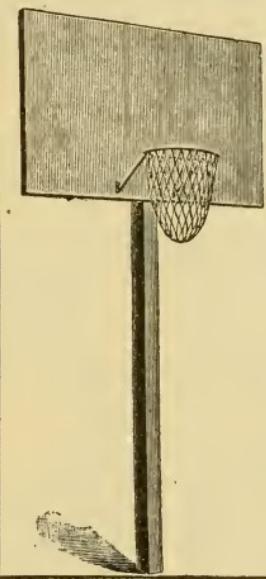

Spalding Nets, Separate, for Goals

Heavy twine; hand knitted white. The same as supplied with No. 80 Goals. Pair, 50¢

Backstops Only, for Basket Ball Goals

No. 100. These backstops are made of $\frac{7}{8}$ -inch matched hard wood. The back of the board is reinforced by three cleats of $2 \times 2\frac{1}{2}$ -inch material. On flat walls the two end cleats extend above and below the backstop, which is attached to the wall by bolting through these cleats.

Per pair, \$20.00

The Spalding Official Intercollegiate Foot Ball

Pat. Sept 12, 1911

No. J5 . . . Complete, \$5.00

This is the ONLY OFFICIAL COLLEGE FOOT BALL, and is used in every important match played in this country.

GUARANTEED ABSOLUTELY IF SEAL OF BOX IS UNBROKEN

Each ball complete in sealed box, including leather case, guaranteed pure Para rubber bladder (not compounded), inflater, lacing needle and rawhide lace.

DE GUARANTEE every J5 Spalding Foot Ball to be perfect in material and workmanship and correct in shape and size when inspected at our factory. If any defect is discovered during the first game in which it is used, or during the first day's practice use, and if returned at once, we will replace same under this guarantee. We do not guarantee against ordinary wear nor against defect in shape or size that is not discovered immediately after the first day's use. Owing to the superb quality of every Spalding Foot Ball, our customers have grown to expect a season's use of one ball, and at times make unreasonable claims under our guarantee which we will not allow.

REG. U. S. PAT. OFF.

Spalding "Official National League" Ball

(REG. U. S. PAT. OFF.)

Patent Cork Center

(PATENTED AUGUST 21, 1908)

No. 1 { Each, . . . \$1.25
Per Dozen, \$15.00

The Spalding "Official National League" Ball has been
the Official Ball of the Game since 1878

Adopted by the National League in 1878, is the only ball used in Championship games since that time and has now been adopted for twenty years more, making a total adoption of fifty-four years.

In adopting the Spalding "Official National League" Ball for twenty years more the Secretary of the National League, Mr. John A. Heydler, gave the following as the reason for this action:

"The Spalding Ball was adopted by the National League for twenty years, because we recognized it as the best ball made. We have used it satisfactorily for thirty-four years. The new Cork Center Ball introduced for the first time last year and used in the World's Series, we believe to be the only ball for the future, and it is absolutely the best that has been used by the National League in its history."

This ball has the Spalding "Patent" Cork Center, the same as used since August 1, 1910, without change in size or cork or construction.

Each ball wrapped in tinfoil, packed in a separate box, and sealed in accordance with the latest League regulations. Warranted to last a full game when used under ordinary conditions.

Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy.

Without a definite and Standard Mercantile Policy, it is impossible for a Manufacturer to long maintain a Standard Quality.

To market his goods through a jobber, a manufacturer must provide a profit for the jobber as well as for the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts," which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer, in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that, 13 years ago, in 1899, A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding Policy."

The "Spalding Policy" eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures the supply of Spalding Athletic Goods direct from the manufacturer by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The "Spalding Policy" is decidedly for the interest and protection of the users of Athletic Goods, and acts in two ways:

First.—The user is assured of genuine Official Standard Athletic Goods and the same prices to everybody.

Second.—As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are requested to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated exactly alike, and no special rebates or discriminations are allowed to anyone.

This briefly, is the "Spalding Policy," which has already been in successful operation for the past 13 years, and will be indefinitely continued.

In other words, "The Spalding Policy" is a "square deal" for everybody.

A. G. SPALDING & BROS.

Standard Quality

An article that is universally given the appellation "Standard" is thereby conceded to be the criterion, to which are compared all other things of a similar nature. For instance, the Gold Dollar of the United States is the Standard unit of currency, because it must legally contain a specific proportion of pure gold, and the fact of its being Genuine is guaranteed by the Government Stamp thereon. As a protection to the users of this currency against counterfeiting and other tricks, considerable money is expended in maintaining a Secret Service Bureau of Experts. Under the law, citizen manufacturers must depend to a great extent upon Trade-Marks and similar devices to protect themselves against counterfeit products—without the aid of "Government Detectives" or "Public Opinion" to assist them.

Consequently the "Consumer's Protection" against misrepresentation and "inferior quality" rests entirely upon the integrity and responsibility of the "Manufacturer."

A. G. Spalding & Bros. have, by their rigorous attention to "Quality," for thirty-four years, caused their Trade-Mark to become known throughout the world as a Guarantee of Quality as dependable in their field as the U. S. Currency is in its field.

The necessity of upholding the Guarantee of the Spalding Trade-Mark and maintaining the Standard Quality of their Athletic Goods, is, therefore, as obvious as is the necessity of the Government in maintaining a Standard Currency.

Thus each consumer is not only insuring himself but also protecting other consumers when he assists a Reliable Manufacturer in upholding his Trade-Mark and all that it stands for. Therefore, we urge all users of our Athletic Goods to assist us in maintaining the Spalding Standard of Excellence, by insisting that our Trade-Mark be plainly stamped on all athletic goods which they buy, because without this precaution our best efforts towards maintaining Standard Quality and preventing fraudulent substitution will be ineffectual.

Manufacturers of Standard Articles invariably suffer the reputation of being high-priced, and this sentiment is fostered and emphasized by makers of "inferior goods," with whom low prices are the main consideration.

A manufacturer of recognized Standard Goods, with a reputation to uphold and a guarantee to protect, must necessarily have higher prices than a manufacturer of cheap goods, whose idea of and basis of a claim for Standard Quality depends principally upon the eloquence of the salesman.

We know from experience that there is no quicksand more unstable than poverty in quality—and we avoid this quicksand by Standard Quality.

A.G. Spalding & Bros.
